HB28 SB11
Regional Housing Authority Oversight
\$250,000 Sponsors: Rep. Roberto “Bobby” J. Gonzales
and Sen. Mary Kay Papen

A \$250,000 appropriation will ensure that New Mexico’s three Regional Housing Authorities have the support, training and oversight necessary to operate efficiently and create affordable housing in rural and unserved areas of the state.

- In 2006 MFA was mandated by the state to restructure and oversee the state’s regional housing authorities. MFA consolidated the seven regional authorities into three and began providing training, technical assistance and auditing on a consistent basis. **There has been no fraud, waste or abuse within the Regional Housing Authorities since MFA began its oversight function.**
- Regional Housing Authorities are the primary housing service providers in rural areas. They will become increasingly important as smaller agencies close due to budget cuts.
- MFA is requesting that funding for oversight of the Regional Housing Authorities be recurring. If funding is not approved, MFA will propose amending the Regional Housing Law so that these responsibilities are transferred to the Department of Finance and Administration.

2013 MFA Production Highlights

In 2013, MFA provided \$222 million in low-interest financing and grants for affordable housing and related services throughout New Mexico.

Homeowners

- **\$132,932,810** in loans to **1,075 homebuyers**, all of whom received pre-purchase counseling.
- **\$5,994,750** in down payment assistance to **1,111 homeowners**.
- **\$2,133,450** in loans to construct or acquire, rehabilitate and resell **119 affordable for-sale homes**, including 40 units already in the pipeline. This includes 55 Habitat for Humanity homes and 47 homes on tribal lands.
- **\$5,619,153** to rehabilitate **78 homes for low-income homeowners**.
- **\$3,457,725** to weatherize **783 homes for low-income homeowners**.

Renters

- **\$42,779,770** in financing to construct or rehabilitate **744 rental homes**, including 191 units already in the pipeline.
- **\$26,997,087** project-based Section 8 rental assistance payments processed for **5,297 apartments occupied by low-income households**.

Housing Those in Need

- **\$986,374** in shelter, transitional housing and operating costs for **8,249 individuals experiencing homelessness**.
- **\$864,108** in homelessness prevention measures for **394 households at risk of becoming homeless**.

Municipal Housing Commissioner Appointments

Sponsors: Sen. Gerald Ortiz y Pino and Rep. Don L. Tripp

An amendment to the Municipal Housing Law will clarify the authority, responsibility and liability of local housing authorities and allow flexibility on the number of commissioners required to be appointed to its board.

- The Municipal Housing Law grants municipalities the option of creating and managing a housing authority or creating a separate housing authority governed by an appointed board of commissioners.
- **However, the Municipal Housing Law does not clearly state that a separate housing authority is not an agent of the city, which hinders the authority from acting independently and could create financial liability for the municipality.**
- Currently, the law requires that five commissioners be appointed to housing authority commissions, regardless of the size of community the housing authority serves. Because small communities have had difficulty meeting this requirement, this amendment would allow small communities to appoint as few as three commissioners, while large communities could appoint as many as seven.

Affordable Housing Oversight Duties

\$200,000 Sponsor: Rep. Luciano “Lucky” Varela

A \$200,000 appropriation will fund oversight of the Affordable Housing Act and technical assistance to local communities.

- MFA is mandated by the state to oversee the Affordable Housing Act. The Act permits state and local governments to contribute public funds, buildings or other resources to create or preserve affordable housing.
- In addition to oversight, MFA provides technical assistance for housing plans and ordinances as required by the Affordable Housing Act. **MFA has received no funds to carry out its mandated responsibilities.**
- MFA is requesting that funding for oversight of the Affordable Housing Act be recurring. If funding is not approved, MFA will propose that these responsibilities **be transferred to the Department of Finance and Administration.**

New Mexico Housing Trust Fund

\$5 Million Sponsor: Sen. Nancy Rodriguez

A \$5 million appropriation will leverage approximately \$70 million to build more than 500 quality affordable homes for low-income New Mexicans.

- The Housing Trust Fund was created in 2005 by the State Legislature with an initial appropriation of \$10 million. Since 2005, the state has appropriated an additional \$8.2 million.
- **For every dollar appropriated to the Housing Trust Fund, an additional \$14 is leveraged.** To date, \$262 million has been leveraged from other housing funding sources and \$11.5 million has been earned from loan repayments and interest income.
- **Almost 1,800 affordable homes have been constructed or rehabilitated in New Mexico using \$18.2 million in state funding.**

HB31

Affordable Housing Act Violations & Penalties

Sponsor: Rep. Roberto “Bobby” Gonzales

Two changes to the Affordable Housing Act will help preserve affordable housing and allow the provisions of the Act to be enforced.

- The Affordable Housing Act permits state and local governments to contribute public funds, buildings or other resources to create or preserve affordable housing.
- In the 10 years since the Act was signed into law, two issues have emerged that HB31 would resolve:
 - **The long-term affordability requirement mandated by the current Act makes it difficult to resell a foreclosed property and recoup public resources invested in the property.** By providing an exception to the long-term affordability requirement in the event of foreclosure, state and local governments can sell a foreclosed property at a fair market value in a timely manner. The proceeds from any such sale must be used for purposes of the Affordable Housing Act, such as reinvestment in other affordable housing projects.
 - **The current Act allows the attorney general to investigate alleged violations of the Affordable Housing Act, but contains no penalties.** HB31 enables the attorney general to bring civil actions, charge civil penalties and pursue criminal charges as appropriate for violations of the Act.

HB39 SB85

Low-Income Residential Energy Conservation

\$1 Million Sponsors: Rep. Nathan P. Cote and Sen. Richard C. Martinez

A \$1 million appropriation will provide weatherization services for approximately 200 more homes than would otherwise be possible, create jobs and save low-income families hundreds of dollars each year on energy bills.

- MFA’s NM EnergySmart program weatherizes the homes of approximately 1,000 low-income families each year. State funding is leveraged five to one with two federal programs. An estimated 85,000 low-income New Mexico residents are eligible for weatherization services.
- **Low-income homeowners may spend up to 17 percent of their monthly budgets on utility costs,** compared to about 4 percent for homeowners with higher incomes.
- **The state has not reinstated funding for this program since funding from the American Recovery and Reinvestment Act was expended.** Combined with federal cuts of 35 percent since 2011, MFA’s ability to provide weatherization services is in steep decline.

HB40

Affordable Housing Tax Credit Act Definitions

Sponsor: Rep. Nathan P. Cote

An amendment to the Affordable Housing Tax Credit Act will clarify eligibility for state affordable housing tax credits and resolve inconsistencies with the Affordable Housing Act.

- **The intent of the Affordable Housing Tax Credit Act of 2005 was to encourage investment in affordable housing by issuing tax credits in exchange for donations of land, buildings, materials, services or cash for affordable housing.**
- Local governments currently make affordable housing contributions under the state Affordable Housing Act. These contributions are inherently revocable and cannot be considered donations for the purpose of obtaining state tax credits. Local governments should not receive state tax credits for contributions such as local government-owned land and infrastructure, local government services, local government grants or loans or for federal or private funds received by a local government.
- This amendment will preserve state tax credits for intended recipients — individuals, private entities and non-profits — that make contributions to affordable housing.

ARTICLE 18. MORTGAGE FINANCE AUTHORITY

N.M. Stat. Ann. § 58-18-1 (2008)

§ 58-18-1. Short title

Chapter 58, Article 18 NMSA 1978 shall be known and may be cited as the "Mortgage Finance Authority Act".

HISTORY: 1953 Comp., § 13-9-1, enacted by Laws 1975, ch. 303, § 1; 1982, ch. 86, § 1.

§ 58-18-2. Legislative findings; declaration of purpose

A. The legislature finds and declares that there exists in the state of New Mexico a serious shortage of decent, safe and sanitary residential housing available at prices and rentals within the financial means of persons and families of low or moderate income. This shortage is severe in certain urban areas of the state, is especially critical in the rural areas and is inimical to the health, safety, welfare and prosperity of all residents of the state.

B. The legislature finds and determines that the shortage of residential housing causes overcrowding and congestion and exacerbates existing slum conditions, which, in turn, contribute substantially and increasingly to the spread of disease and crime, impair economic values, necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health, welfare and safety programs, fire and accident protection and other services, substantially impair or arrest the growth of municipalities, aggravate traffic problems and promote juvenile delinquency and other social ills.

C. The legislature finds and declares further that private enterprise unaided has not been able to produce the needed construction of decent, safe and sanitary residential housing at prices and rentals that persons and families of low or moderate income can afford or to achieve the urgently needed rehabilitation of much of their present housing. It is imperative that the supply of residential housing for persons and families of low or moderate income be increased substantially and that private enterprise and investment be encouraged to sponsor, build and rehabilitate residential housing for such persons and families.

D. It is found and declared that a major cause of this housing shortage is the lack of funds in private banking channels available for affordable residential mortgages. This lack of funds has contributed to drastic reductions in construction starts of new residential housing and has frustrated the sale and purchase of existing residential housing in the state.

E. It is further found and declared that the drastic reduction in residential construction starts and in residential rehabilitation projects associated with housing shortages has caused a condition of substantial unemployment and underemployment in the construction industry, which results in hardships to many individuals and families, wastes vital human resources, increases the public assistance burdens of the state and its municipalities, impairs the security of family life, impedes the economic and physical development of municipalities and adversely affects the welfare and prosperity of all the people of the state. A stable supply of adequate funds for affordable residential mortgages is required to spur new housing starts and the rehabilitation of existing units in an orderly and sustained manner and thereby to reduce the haz-

ards of unemployment and underemployment in the construction industry. The unaided operations of private enterprise have not met and cannot meet the need for a stable supply of adequate funds for affordable residential mortgage financing.

F. The legislature further finds and determines that for the purposes of remedying these conditions, helping to alleviate the shortage of adequate housing and encouraging and providing the financing for the acquisition, construction, rehabilitation and improvement of residential housing for persons and families of low or moderate income within the state, a public body politic and corporate, separate and apart from the state, constituting a governmental instrumentality to be known as the New Mexico mortgage finance authority should be created with power to raise funds from private and public investors, to make funds available for such purposes, to create and implement programs from time to time as may be necessary or appropriate to accomplish its purposes and to assist, administer, finance or service housing programs for or through private and nonprofit organizations and local, state, federal and tribal agencies or their instrumentalities. The legislature finds and declares further that in accomplishing these purposes, the New Mexico mortgage finance authority is acting in all respects for the benefit of the people of the state in the performance of essential public functions and is serving a valid public purpose in improving and otherwise promoting their health, welfare and prosperity, and that the enactment of the provisions set forth in the Mortgage Finance Authority Act [this article] is for a valid public purpose and is declared to be such as a matter of express legislative determination.

HISTORY: 1953 Comp., § 13-19-2, enacted by Laws 1975, ch. 303, § 2; 1995, ch. 9, § 1.

§ 58-18-2.1. Multiple-family, transitional and congregate dwellings; supplemental legislative findings and purpose

The legislature finds and declares that there is a critical shortage of multiple-family, transitional and congregate dwellings that provide decent, safe and sanitary residential housing at rentals that persons and families of low or moderate income can afford. It is further found and declared that private individuals, organizations and entities willing to undertake the construction of multiple-family, transitional and congregate dwellings are unable to obtain loans at sufficiently low interest rates to finance multiple-family, transitional and congregate dwelling projects for persons and families of low or moderate income. Providing mortgage loans at below-market interest rates for multiple-family, transitional and congregate dwellings would increase substantially the availability of multiple-family, transitional and congregate dwellings for occupancy by persons and families of low or moderate income and is expressly declared to be a valid public purpose and a corporate purpose that may be exercised by the authority.

HISTORY: 1978 Comp., § 58-18-2.1, enacted by Laws 1982, ch. 86, § 2; 1995, ch. 9, § 2.

§ 58-18-4. Authority created

A. There is created a public body politic and corporate, separate and apart from the state, constituting a governmental instrumentality, to be known as the “New Mexico mortgage finance authority”, for the performance of essential public functions. The authority shall be composed of seven members. The lieutenant governor, state treasurer and attorney general shall be ex-officio members of the authority with voting privileges. The governor, with the advice and consent of the senate, shall appoint the other four members of the authority, who shall be residents of the state and shall not hold other public office. The four members of the authority appointed by the governor shall be appointed for terms of four years or less staggered so that the term of one member expires on January 1 of each year. Vacancies shall be filled by appointment by the governor for the remainder of the unexpired term. Any member of the authority shall be eligible for reappointment. Each member of the authority appointed by the governor may be removed by the governor for misfeasance, malfeasance or willful neglect of duty after reasonable notice and a public hearing, unless the notice and hearing are, in writing, expressly waived. Each member of the authority appointed by the governor, before entering upon duty, shall take an oath of office to administer the duties of the office faithfully and impartially, and a record of the oath shall be filed in the office of the secretary of state. The governor shall designate a member of the authority to serve as chair for a term that shall be coterminous with the chair's then current term as a member of the authority. The authority shall annually elect one of its members as vice chair. The authority shall also elect or appoint and prescribe the duties of other officers, who need not be members, as the authority deems necessary or advisable, including an executive director and a secretary, who may be the same person. The authority shall fix the compensation of officers. Officers and employees of the authority are not subject to the Personnel Act. The authority may delegate to one or more of its members, officers, employees or agents the powers and duties it may deem proper.

B. All members, officers, employees or agents exercising any voting power or discretionary authority shall be required to have a fiduciary bond in the amount of one million dollars (\$1,000,000) for the faithful performance of their duties, the cost of which shall be proper expense of the authority.

C. The executive director shall administer, manage and direct the affairs and business of the authority, subject to the policies, control and direction of the members of the authority. The secretary of the authority shall keep a record of the proceedings of the authority and shall be custodian of all books, documents and papers filed with the authority, the minute book or journal of the authority and its official seal. The secretary shall have authority to make copies of all minutes and other records and documents of the authority and to give certificates under the official seal of the authority to the effect that the copies are true copies and all persons dealing with the authority may rely upon the certificates.

D. Meetings of the authority shall be held at the call of the chair or whenever three members so request in writing. A majority of members in office shall constitute a quorum for the transaction of any business and for the exercise of any power or function of the authority. A vacancy in the membership of the authority shall not impair the rights of a quorum to exercise all the rights and to perform all the duties of the authority. An ex-officio member from time to time may designate in writing another person to attend meetings of the authority and, to the same extent and with the same effect, act in the member's stead.

E. The authority is not created or organized, and its operations shall not be conducted, for the purpose of making a profit. No part of the revenues or assets of the authority shall inure to the benefit of or be distributable to its members or officers or other private persons. The members of the authority shall not receive compensation for their services, but the members of the authority, its officers and employees shall be paid allowed expenses if approved by the authority in accordance with policies adopted by the authority and approved by the Mortgage Finance Authority Act oversight committee.

F. The authority shall be separate and apart from the state and shall not be subject to the supervision or control of a board, bureau, department or agency of the state except as specifically provided in the Mortgage Finance Authority Act

[Chapter 58, Article 18 NMSA 1978]. To effectuate the separation of the state from the authority, the use of the terms “state agency” or “instrumentality” in any other law of the state shall not be deemed to refer to the authority unless the authority is specifically named.

HISTORY: 1953 Comp., § 13-19-4, enacted by Laws 1975, ch. 303, § 4; 1985, ch. 232, § 1; 1987, ch. 57, § 1; 1995, ch. 9, § 6; 2003, ch. 17, § 1.

§ 58-18-5. Powers of the authority

The authority shall have all the powers necessary or convenient to carry out and effectuate the purposes and provisions of the Mortgage Finance Authority Act [58-18-1 NMSA 1978], including but without limiting the generality of the foregoing, the power:

- A. to sue and be sued;
- B. to have a seal and alter it at pleasure;

MFA Mandate, Vision, Mission, and Core Values

MFA Mandate

In 1975 the New Mexico state legislature created the New Mexico Mortgage Finance Authority, a public body politic and corporate, separate and apart from the state, constituting a governmental instrumentality, with the power to raise funds from private investors in order to make such private funds available to finance the acquisition, construction, rehabilitation and improvement of residential housing for persons and families of low or moderate income within the state.¹

MFA Vision

All New Mexicans will have quality affordable housing opportunities.

MFA Mission

Provide innovative products and services in collaboration with strategic partners to finance the purchase, construction and preservation of quality affordable housing to strengthen the social and economic development of New Mexico.

MFA Core Values

- Hire well qualified employees representing the diversity of the state, pay them competitively, treat them fairly, and provide opportunities for advancement.
- Provide prompt, courteous, quality service.
- Foster a professional environment that supports a high level of integrity, transparency, collaboration, and commitment to mission.
- Allocate resources to serve those with the greatest need while promoting partnerships to maximize housing opportunities.
- Practice cost-effective operations and prudent fiscal management.
- Promote sustainable growth, innovation, and environmentally conscious practices.

Top Ten MFA Myths...Debunked!

Myth Debunked!
Myth #1: MFA develops/builds homes.	MFA does not develop and/or build homes. MFA provides financing to developers to build homes – we’re kind of like a bank. Most of MFA’s development financing is in the form of loans, but we also provide tax credits and some grants.
Myth #2: MFA has lots of grant funding available.	MFA has very little grant funding available. Because MFA borrows most of its funding, we must in turn make that funding available as loans, not grants. Additionally, some of the resources MFA receives require that we “recycle” them because they are limited. When we recycle funds—that is, when MFA asks that these funds be repaid—we can use the repayments to assist more people.
Myth #3: MFA is a state agency.	MFA is not a state agency; MFA is an “instrumentality of the state.” MFA is like a state agency in that it was chartered by the state legislature in 1975 and serves a public purpose. MFA’s Board of Directors is a public body, and MFA has a Legislative Oversight Committee. But MFA is unlike a state agency in that it receives no state funding to support its operations, its liabilities are not the state’s liabilities, its employees are not employees of the state, and MFA does not participate in PERA.
Myth #4: MFA issues mortgage revenue bonds. Aren’t they risky? Does this pose a risk to the state’s financial position?	MFA has historically taken a very conservative approach in structuring bond offerings, and has never entered into any derivative or swap transactions, nor has MFA ever issued any variable rate debt. MFA’s issuer rating is AA- Positive Outlook, and bond issues are typically AAA-rated. MFA was one of very few housing finance agencies in the country able to issue mortgage revenue bonds in 2009, and <i>MFA has never had a non-origination call</i> . MFA bonds are very sound investments. Finally, because MFA is not a state agency, MFA’s bond issues pose no risk to the state because they are not considered a liability of the state. The New Mexico State Constitution significantly restricts the state’s ability (and that of counties and municipalities) to issue debt: this is why MFA was created “separate and apart from the state” as an instrumentality.
Myth #5: MFA gave our town the money for our fire station/ courthouse/community center.	MFA provides funding for housing and housing-related activities <i>only</i> . The similarly named <i>New Mexico Finance Authority</i> (“NMFA”) provides financing for the types of facilities mentioned in this myth, as well as other basic infrastructure and economic development projects. MFA and NMFA are completely separate organizations and MFA provides financing for very different purposes.

Myth Debunked!
Myth #6: MFA oversees/regulates public housing authorities.	Prior to 2007, MFA had no oversight authority with the regional housing authorities. In 2007 several changes to the Regional Housing Law were enacted, and MFA was charged with some regional housing oversight responsibilities. MFA does not have, nor has it ever had, an oversight relationship with the public housing authorities: they report to boards and/or their county or municipal governments, and HUD oversees their administration of public housing resources.
Myth #7: If you want to buy a home, just go to MFA and they'll give you a mortgage loan.	MFA does not lend directly to individual homebuyers, nor do all individuals qualify for MFA's mortgage loan products. MFA works with a large network of participating lenders throughout New Mexico who in turn work with individual homebuyers. Most of MFA's mortgage loans are available to first-time homebuyers only, and they have to meet reasonably good credit standards. In addition, in order to qualify for many of MFA's loan and down payment assistance products, prospective borrowers must successfully complete a pre-purchase homebuyer education course.
Myth #8: MFA is at significant financial risk in today's housing market because more and more borrowers are defaulting on their loans.	While today's housing and mortgage markets are challenging in general, MFA is not at significant financial risk due to the uptick in poor loan performance. When MFA purchases loans from participating lenders, they are securitized and then the mortgage-backed securities are sold to the secondary market (either Ginnie Mae or Fannie Mae). The federal government then insures the mortgages so that even if the borrower defaults on his/her payments, MFA is held harmless and repayments continue to flow so that MFA can in turn repay the bond holders who purchased the bonds that provided the financing for the mortgages. What is more, because MFA borrowers receive 30-year fixed rate loans and are typically required to successfully complete pre-purchase homebuyer education courses, they usually enjoy lower delinquency and default rates.
Myth #9: My community could use some new homes/weatherization/ housing rehabilitation/a homeless shelter. MFA will make it happen.	This myth is related to Myth #1. It is important to understand that MFA does not develop and/or build homes, provide direct weatherization or housing rehabilitation services, build homeless shelters, or serve people experiencing homelessness. MFA provides the funds to do all of these things. If a developer, municipality, county, or other service provider wishes to apply to MFA for funding to carry out any of these activities in a given community, MFA can help.
Myth #10: MFA is part of HUD.	The U.S. Department of Housing and Urban Development (HUD) is a federal agency that provides various financial resources for housing and community development. MFA administers HUD funding and contracts on behalf of the state. HUD is an important partner to MFA, but MFA is not part of HUD.

Goal 2 - Homeownership			
Objective 1	Provide first mortgage financing to 3,180 first-time homebuyers. (3 year objective) FY2014:1,250 first-time and non-first time homebuyer loans	As of 04/24/2014, MFA has provided first mortgage financing to 476 first-time and non-first time homebuyers throughout the state of New Mexico. To drive demand for MFA's mortgage product during the upcoming buying season, mortgage rates were reduced and are now more competitive with the local mortgage rate market. MFA held a lender roundtable in mid-April and discussions indicate that the mortgage market is down in general, not only for MFA programs. Lenders indicated that poor credit seems to be the major obstacle for potential homebuyers as well as a shortage of homes for sale.	Caution
Objective 2	Increase assistance to rural households, which may include first mortgage loans, down payment assistance loans, pre-purchase counseling and loss mitigation counseling. FY2014: Measure and track results of rural marketing/referral program.	Rural New Mexico webpage has been added to MFA website, which lists MFA designated "Rural Specialist" mortgage lenders and Realtors. As of 03/31/14, the webpage has had 319 unique visits. Staff is currently surveying the Rural Specialists to determine the level of activity as well as the quality of referrals generated by the webpage.	On Target
		Staff is actively managing the Homeownership Preservation Program for the NM Attorney General's Office. Year 2 contract amendments with program contractors have been executed.	

Objective 4	Assist in the development and implementation of the Attorney General's Homeownership Preservation initiative. FY2014: Conduct contractor monitoring/audits, provide appropriate reports to HPP Manager and assist HPP Manager with the coordination of various service components among contractors.	The comprehensive program reporting system is almost complete. Staff have conducted quarterly contractor monitorings. Currently collecting data from program contractors to track the number of at-risk homeowners assisted through the program as of March 31, 2014. MFA has also executed an MOU with the Attorney General's Office to assist in the transition of the program after Year 3 of the program. Fiscal agent activities are running smoothly and monitoring activities are ongoing.	On Target
Objective 5	Assist 2,694 first-time homebuyers to obtain face-to-face or online pre-purchase homebuyer counseling. (3 year objective) FY2014: 950 on-line counseling units; 35 face-to-face sessions	As of 04-24-14, MFA has assisted 618 first-time homebuyers to obtain pre-purchase homebuyer counseling. Of the 618 homebuyers, 573 have obtained on-line counseling and 45 have obtained face-to-face counseling.	On Target
Objective 6	Rehabilitate 2,507 existing housing units in New Mexico to achieve MFA health and resource conservation standards. (3 year objective) FY2014: 600 units w/ HOME and NM Energy\$mart	There have been 148 fully weatherized homes and 296 NM Gas Baseload and Baseload Plus homes for a total 444 homes. 40 Rehab units completed to date.	On Target
Objective 7	Provide funds to acquire and rehabilitate 17 units, for sale or rent, to reduce the inventory of foreclosed homes and to stabilize affected communities. (3 year objective) FY2014: 0 units	Final Neighborhood Stabilization Program home completed and sold. Sale closed 1/24/14.	Met
Objective 8	Maintain MFA single-family mortgage market share. FY2014: Define and implement activities that maintain MFA single-family mortgage market share.	The Homeownership Department has begun to implement monthly marketing activities which includes interaction and communication with key management staff in the existing Participating Lender network. The goal of the marketing effort is to identify activities that will provide high impact results within our existing lenders. Staff also continues to look at program changes that will make the MFA program easier for lenders to use; there is a strong sense per our lender roundtable that MFA loans are more difficult to originate. Staff is also discussing having more regular/frequent communications with lenders/realtors (i.e. newsletter).	On Target
Objective 9	Evaluate and implement, if feasible, servicing expansion for single family loans.	The Servicing Expansion Committee was assigned the responsibility of evaluating the feasibility of expanding MFA's self-servicing operation in support of MFA's Strategic Plan and alignment with MFA's mission. The Committee has concluded the evaluation and determined that moving forward with the project does not support the goal to generate a viable revenue generating opportunity. Therefore, the Committee recommended and the Board approved not moving forward with the project.	Met
Goal 3 - Rental & Group Shelter			
Objective 1	Net increase in affordable rental units in MFA's portfolio. FY2014: Provide financing for new construction or acquisition/rehabilitation of 250 units, which combined with units added in 2012 and 2013 will exceed the number of units lost in the same time period.	MFA provided financing which produced 119 affordable units without any losses of units in MFA's portfolio during the first quarter. No unit loss recorded during second quarter.	On Target

Objective 2	Create/maintain long term viable rental properties through strong underwriting and proactive oversight. Continue risk management and analysis efforts on existing portfolio. FY2014: Sustain ratings for 70% of the portfolio and explore trend analysis reporting based on 2011-2013 data.	target for rating 70% of the portfolio. Part two of this objective is cautionary, as 2011 data is not equivalent to data obtained in subsequent years and MFA continues to experience technical issues with our software vendor which impact our ability to receive data from our housing partners. Update on underwriting: Progress is ongoing with the redevelopment of our loan underwriting tool; the 2014 LIHTC Underwriting Supplement was revised and posted to our website; the process for reviewing/updating underwriting standards to comply with new HOME regulations is in progress.	On Target

Assist 300 households with Rental Assistance Program, Assist 5,000 individuals with Emergency Homeless Assistance, Assist 1,000 individuals with Continuum of Care Performance Program, Assist 330 individuals with HOPWA funding, Assist 30 individuals with Linkages funding	As of March 31, 2014 the following have been assisted: Rental Assistance Program: 173 households, Emergency Homeless Assistance Program: 2,651 individuals, Continuum of Care Performance Program: 616 individuals, Housing Opportunities for Persons With Aids: 322 individuals, Linkages: 34 individuals	On Target
Objective 4	Develop services for owners to aid in preserving quality rental housing. FY2014: Implement services targeted for LIHTC program: Online portal for utility allowance/analysis requests	2014 benchmark is "on hold" until further notice due to more pressing technology based projects. Other strategies under the main objective are in process - specifically technical guides for Low Income Housing Tax Credit compliance and processing capital reserve for replacement requests. Staff will request a change to the 2014 benchmark at the May Board meeting.	Caution
Objective 5	The Asset Management Department will perform 100% of required long-term compliance monitoring for all affordable housing programs under its purview.	In the first quarter a total of 57 property monitoring visits and physical inspections were conducted to close out the 2013 annual work plan. Will continue to refine and implement policies and processes that attract and retain quality employees.	On Target
Objective 4	Research suggested/identified processes/programs and develop those that are found to be feasible to ensure employee satisfaction and staff development by 9/30/2014.	Continue to conduct research on employee satisfaction and engagement by reviewing HR trends locally and nationally.	On Target
Objective 5	Continue to identify Board, staff and management training needs and develop and implement training utilizing internal resources, local universities, trade schools and/or consultants where applicable.	During the first two quarters, the Human Resource Director has collaborated with Supervisors to discuss new and ongoing training needs. Training assessment and implementation is ongoing through the end of the fiscal year. During the second quarter, MFA staff (Asset Management) earned professional designations as Housing Compliance Manager for the HUD HOME Program. The training for this certification was provided by Zeffert & Associates, a national housing expert in the field of multifamily housing. In addition, a member of the Asset Management team achieved a HUD Certification to work as a REAC (Real Estate Assessment Center) Physical Inspector. This certification will allow MFA to move forward on new key initiatives. Community Development Department staff have attended the following trainings: NCSHA HOME Workshops (1), National Association for State Community Services Program (1), NeighborWorks Planning (1), Energy Out West (2), Supercircular Webinar (5). Accounting staff have also participated in webinars related to the new OMB circular as well as training on the new COSO Internal Control Framework. Other conferences attended include the MBA Compliance and Regulatory Conferences, Retained Servicing, and the School of Mortgage Servicing. Board members and staff have also participated in NCSHA's Annual Conference (5), HFA Institute (9) and Legislative Conference (3), and HUD Single Family Default Monitoring System (SFDMS) Neglected Default training. All production servers and applications will be available 99% of all business hours during a 12-month period. Production servers cannot be unavailable for more than a total of 20 business hours during a 12-month period.	Availability to production servers and applications for the first two quarters was 100%.	On Target
Objective 8	Protect and secure MFA's data and systems from unauthorized access: perform vulnerability tests every 6 months, and mitigate any vulnerabilities identified as high risk within 1 business week following notification.	The first of 2 vulnerability tests for this fiscal year was performed on December 17, 2013. A final report has been received indicating MFA continues to maintain a low risk level.	On Target
Objective 9	Research, implement and support technology solutions to improve operational efficiencies and data tracking capabilities for MFA and partners.	MFA successfully migrated our system backup strategy from tapes to a disk and cloud-based solution. The transition streamlines our backup procedures and improves the speed MFA can recover from a site disaster. A high-speed redundant internet data line has also been installed. Housing library now available on the MFA website and updates are ongoing. Work continues towards automating the generation of Exposure Reports. Initial automated reports are expected in May 2014.	On Target

APPENDIX K: GLOSSARY OF TERMS

This glossary contains key words and phrases frequently used in connection with the financing of housing by state and local housing and finance agencies. While most terms relate directly to bond financing, others are also used in mortgage financing and real estate development. If a definition varies between these disciplines, the given definition applies to bond financing.

A

Affordable Housing Program: This is a program offered through the Federal Home Loan Bank System which subsidizes the interest rate on loans and provides direct subsidies to Bank System member institutions that lend for long-term, very-low-, low-, and moderate-income, owner-occupied and affordable rental housing. The program is designed to encourage creative efforts in increasing affordable housing.*

Agency Buydown: An upfront agency payment, which reduces the monthly principal and interest payments on a loan by reducing the initial interest rate. By buying down a loan, an agency subsidizes the homeowner during the buydown period.

Agency Contribution: Upfront dollar transfer of agency unrestricted funds to a new bond issue to help pay the issuance costs. The agency thereby reduces the amount of non-asset bonds, making the potentially negative effect of partial non-origination of mortgages less of a credit problem.

Amortization: The reduction in the outstanding principal amount of a loan achieved as the result of repayment of principal.

Arbitrage (or Program's Gross Spread): The yield differential between the bond and, in the case of Mortgage Revenue Bonds, the mortgage contract rate. Costs which must be paid from this spread typically include: the underwriter's discount; bond counsel fees; other costs of issuance; and mortgage origination, servicing, and related fees. Arbitrage limitations on tax-exempt bonds are established by the Internal Revenue Service.

ARM (Adjustable-Rate Mortgage or Variable-Rate Mortgage): A mortgage on which the interest rate is adjusted on a periodic basis in reference to an accepted index of market interest rates, such as the 12-month U.S. Treasury borrowing rate. ARMs usually include limits, or caps, on the size of the interest rate adjustments, such as 1 percent a year and 5 percent overall.

B

Basis Point: Yields on municipal securities are usually quoted in increments of basis points. One basis point is equal to .01 or 1/100th of 1 percent.

Basis Price: The price of a security expressed in yield or percentage return on the investment.

Bearer Bond: A bond that has no identification as to owner and therefore is presumed to be owned by the person who holds it (the bearer). Bearer bonds are freely and easily

negotiable since ownership can be quickly transferred from seller to buyer. Bearer bonds are no longer permitted for new issues of tax-exempt bonds.

"Blue Sky" Laws: State laws enacted to protect the public against securities fraud.

Bond: An interest-bearing promise to pay a specified sum of money—the principal amount—which is due on a specific date and secured by specified sources of revenue.

Bond Anticipation Notes (BANs): Short-term securities issued by states and municipalities to obtain interim financing for projects, which will eventually be funded long-term through the sale of a bond issue.

Bond Counsel: Legal counsel responsible for determining that all applicable local, state, and federal laws, regulations, and procedures are met in the issuance of a bond.

Bond Insurance: Guarantee of timely principal and interest payments to bondholders in the event of issuer default.

Bond Rate: The interest rate which is stated on the bond and payable to the bondholders periodically.

Bond Traders: Investment bank and commercial bank employees who engage in the purchase and sale of bonds after they are first sold (a secondary market).

Bond Yield: The overall interest cost percentage for a series of bonds.

Broker: A securities firm or department of a commercial bank which engages in the underwriting, trading, and sales of municipal securities for the account of another.

C

Call Provisions: The terms under which bonds are redeemable by the issuer prior to the specified maturity date at a stated price (which often is above par).

Canadian Interest Cost (CIC): A method of calculating total cost for new issues of municipal securities that takes into consideration the time value of money.

Cash Flow: For bonds which finance mortgage loans, the sum of mortgage repayments and prepayments, plus other revenues available to make debt service payments on the bonds and to pay related fiduciary and servicing costs.

Capped Adjustable Mortgage: An adjustable-rate mortgage which has a limit on the size of the annual and/or total increase in the interest rate.

Capital Appreciation/Accumulator Bonds (CABs): Bonds which pay interest on an accumulated basis at maturity. Unlike zero coupon bonds, the par amount of CABs does not reflect future interest payments.

Capital (Debt Service) Reserve Fund: A security requirement established to provide a revenue bond program with reserves which would be available in the event of a shortfall in operating revenues. The requirement is normally set in terms of maximum annual debt

service but is sometimes calculated as a fixed percentage of the principal amount of outstanding debt.

CHAS (Comprehensive Housing Affordability Strategy): An analysis of housing needs and strategies which is required of states and local governments to receive HUD program funds or assistance.

Coinsurance: Mortgage insurance in which the loan originator agrees to insure part of the mortgage in return for part of the premium. A stop-loss provision with respect to a pool of mortgage is usually involved. The term is often used in a less generic sense to refer to a now-terminated Federal Housing Administration (FHA) multifamily program.

Collateralized Mortgage Obligations (CMOs): A security backed by a pool of mortgages or mortgage pass-through certificates. CMOs are issued with varying classes (tranches), all of which receive interest payments semi-annually from monthly interest payments on the mortgages in the pool. Principal payments on the mortgages in the pool are applied to the CMOs of the shortest tranche until retirement, next to the CMOs of the next shortest tranche, and so forth until all of the CMOs backed by the pool have been paid off.

Community Development Block Grants (CDBG): Programs administered by HUD to aid community and economic development, mostly to benefit activities serving low and moderate income persons. Three types of CDBGs:

CDBGs (Entitlement): Grants to entitlement communities, for a wide range of community development programs for neighborhood revitalization, economic development and improved community facilities and services. These communities develop their own programs in consultation with local residents.

CDBGs (Non-Entitlement) For States And Small Cities: Grants to non-entitlement communities, for similar programs.

CDBGs (Section 108 Loan Guarantee): These are loan guarantees that offer eligible communities financing for housing rehabilitation, economic development and large-scale physical development projects.

Community Housing Development Organizations (CHDOs): Community-based nonprofit entities for which a portion of HOME funds must be set aside.

Community Investment Program: This is a program offered through the Federal Home Loan Bank System which provides funds for community-oriented mortgage lending. Under the program, each Bank also designates a community investment officer to implement the Banks' community lending and affordable housing advance programs.

Competitive Bids: A sale of municipal securities by an issuer in which underwriters or syndicates of underwriters submit sealed bids to purchase the securities. This contrasts with negotiated underwriting.

Compliance Monitoring: The process of determining whether program requirements continue to be met. For example, the Low Income Housing Tax Credit program has specific compliance monitoring requirements.

CBO (Congressional Budget Office): The major budgetary analysis organization for Congress.

CRS (Congressional Research Service): The research arm of the Congress.

CDI (the Continuing Disclosure Information (Pilot)): This is the Municipal Securities Rulemaking Board's (MSRB's) effort to collect continuing financial information regarding municipal bond issues.

Convertible Option Bonds (COBs): Bonds initially issued at a short-term interest rate which may be converted later at the option of the issuer to a long-term fixed-rate bond.

Costs of Issuance: All expenses related to the authorization, sale, and issuance of bonds.
