2021 Proposed Work Plan

The Radioactive and Hazardous Materials Committee was created in 1979 pursuant to the provisions of the Radioactive and Hazardous Materials Act. During the 2021 interim, pursuant to Section 74-4A-11 NMSA 1978, the committee will review, as scheduling permits:

1. the status of Holtec International's consolidated interim storage facility permit application pending before the federal Nuclear Regulatory Commission;
2. issues and concerns regarding Los Alamos National Laboratory (LANL), including LANL's plan for increased plutonium pit production and a presentation from the Northern New Mexico Citizens' Advisory Board;
3. the status and future of the Department of Environment's (NMED's) compliance order on consent with LANL;
4. the status of radioactive and hazardous materials cleanup efforts by the NMED, including the Kirtland Air Force Base bulk fuel spill, per- and polyfluoroalkyl substances contamination and chromium and other legacy wastes at LANL;
5. the implementation of the Produced Water Act;
6. the status of remediation and legal issues concerning the Gold King Mine spill;
7. Waste Isolation Pilot Plant operations and pending permit modifications;
8. updates from the federal Defense Nuclear Facilities Safety Board;

9. the mixed waste landfill at Sandia National Laboratories;
10. uranium mining legacy cleanup;
11. issues concerning downwinders;
12. a report from the Radioactive Waste Consultation Task Force;
13. a report from the Carlsbad Brine Well Remediation Authority; and
14. a report from the State Emergency Response Commission.
