

Overview of State IT Projects and Risk Assessments

October 26, 2021 Jessica Hitzman, LFC Analyst & Evaluator Presentation to the Science, Technology, and Telecommunications Committee

Accountability in Government Act.

- Under the Accountability in Government Act, enacted in 1999, the state traded budget flexibility for information about performance
- New Mexico is seen as a national leader in performance measurement
- To facilitate reviews of agency performance, LFC developed report cards for agencies and extended this strategy to IT projects
- The report cards include information from monthly project reports, independent verification & validation reports, and meetings with agency staff members and leadership
- National Conference of State Legislators and LFC detail the benefits of using performance data for communication, oversight, and prioritization (See <u>Legislating for Results</u>)

LFC Report Cards & Risk Assessments: Value Added

Report cards bring value by:

- Providing an overview of budget, schedule, and risk status
- Bringing attention to high risk projects
- Focusing on performance and results
- Guiding funding discussions
- Prompting a deeper dive

Report cards can add additional value through:

- Additional functionality measures
- Measuring the consequence of failure or delay
- Ensuring projects meet their intended business objectives and functions
- More in-depth reporting on project outcomes and lessons learned

Report cards provide transparency into the status of state IT projects but can also provide a means for continuous monitoring and assessment, contributing to the overall value and success of a project as risks are identified and addressed.

Independent Verification & Validation

- A process for validating progress and assessing risk
- Occurs by an outside agency or vendor
- Assesses every aspect of a project from inception to completion
- Generally a best practice to identify high-risk areas early in the project

Monthly DoIT Reports

- Agency-produced reports
- Used to auto-populate the DoIT dashboard on their website
- Provide a status rating and some details on schedule, budget and risk from agency reports

LFC	Project Status Legend	Project evaluate compon
G	Project is on track; scope, budget, schedule, and deliverables are being managed appropriately.	BudgScheel
Y	Project has potential risk to scope, cost, schedule, or deliverables; independent verification and validation (IV&V) or LFC staff has identified one or more areas of concern needing improvement.	• Overa Each qua
R	Significant issues limit success of the project; high risks to scope, cost, schedule, or deliverables identified; management attention and corrective action needed.	ratings a produce status ra

risk status is ted on three nents:

- get
- edule
- rall Risk

uarter, the are combined to e an overall rating for each project

LFC report cards attempt to capture those projects of highest value, highest risk, or those projects most critical to business functions

FY21 Q4 IT Projects

Agency & Project Name	Overall Status Rating	Cost (millions)
HSD's MMISR		\$348.5
DoIT's P25		\$176.7
State Broadband Program		\$128.3
HSD's CSESR		\$65.6
CYFD's CCWIS		\$45.4
NMCD's OMS		\$14.8
DoIT's SWIRE		\$14.2
SLO's RAPS		\$11.9
DoIT's Rural Broadband		\$10.0
DPS's RMS		\$7.4
RLD's Accela Replacement		\$7.3
DoIT's Cybersecurity		\$7.0

6

Ratings Comparison Example

Statewide Infrastructure Replacement and Enhancement Project

- Closed out with a green rating
- Covered necessary scope
- 3 change requests, including one schedule extension
- Implemented the required + additional infrastructure
- Without successful completion, the state would not have been able to pursue federally mandated public safety radio upgrades

Medicaid Management Information System Replacement Project

- Currently rated red
- Budget almost doubled
- At risk of losing federal funds
- 7+ year schedule extension and 10 change requests
- Without successful completion, the state would be unable to receive federal support for Medicaid system, as the system is federally required, likely increasing costs to the state

Agency 630 Human Services Department (HSD) Project Name Child Support Enforcement System Replacement (C SESR) Project Replace the more than 20-year-old system with a flexible, user-friendly solution to enhance the department's ability to meet federal performance measures. Description Estimated Implementation Date: 6/30/2024 **Project Phase** Implementation Estimated Total Cost: \$65,581.9 Total % of Budget State Federal Available Spent to Date Balance Expended Funding¹ In thousands \$5,143.4 \$13,384.30 \$18,527.7 \$14,947.8 \$3,579.9 80.7% 02 Q3 FY21 Rating Q1 Q4 Status Budget Reported spending increased this quarter due to previous delays in reporting. The agency reports planning for additional budget adjustments for the project and federal approvals for combined funding with HSD's Medicaid project and CYFD's child welfare project are still pending, putting funding at risk. Schedule Monthly project reports as timate completion in June 2024, however the Independent Verification & Validation (IV&V) reports did not note a final estimated completion date. According to the agency, the project timeline has been changed to better align with the HHS2020 Enterprise initiative, now spanning over 8 years from initiation in 2013. Risk Organizational change management was identified as a project risk in reports by the IV&V vendor. Developer training is in progress and the agency decided to implement Cyberfusion services post-Go Live, which helped the project avoid additional delays. Overall Schedule and budget now pose the greatest risk. However, IV&V indicates that the decision to implement Cyberfusion after Go-Live prevented additional delays. HSD is also preparing for an upcoming IRS audit taking place in 2021 to assess some system environments and components. *Total available funding includes an additional \$5.2 million appropriated in Laws 2019: \$1.8 million general fund and \$3.4 million federal.
