

## Company Overview

Vivint Solar is a leading full-service residential solar provider in the United States serving customers in 21 states. As part of each sale, Vivint Solar designs and installs the system, allowing customers to enjoy the benefits of affordable, renewable solar energy. Vivint Solar has deep installation expertise, having completed over 120,000 installations throughout the United States.

## Vivint Solar in New Mexico

- Serving the state since July 2015
- 2,018 customers
- 12.18 MW installed
- 81 employees

## Offerings

- **PPA:** A Power Purchase Agreement (PPA) is an agreement between a developer (Vivint Solar) and a customer. Vivint Solar installs solar panels on the customer's home and sells the customer the power it produces, typically at a lower rate than the utility. Vivint Solar retains ownership of the system.
- **Loan:** The Solar Loan allows customers to buy solar panels at a competitive APR and offers multiple options for loan terms through a third-party lender. Vivint Solar provides installation, maintenance, and monitoring.
- **Cash purchase:** A cash purchase allows customers to buy panels upfront and get years of affordable power. The customer won't receive any monthly energy bills from Vivint Solar, just a smaller monthly bill from their current utility. Vivint Solar stills provides installation, maintenance, and monitoring.
