Rep. Karen E. Giannini
Speaker Ben Lujan
Sen. Richard C. Martinez
Rep. Kathy A. McCoy

Sen. William H. Payne
Rep. Danice Picraux
Sen. John M. Sapien
Rep. Don L. Tripp
Rep. Jeannette O. Wallace

Work Plan

During the 2009 interim, the committee proposes to focus on the following activities:

(1) review and monitor:

(a) the current statewide and local broadband networking efforts, including the role of libraries and their needs, and telecommunications issues relating to the New Mexico Integrated Strategic Broadband Initiative;

(b) the ongoing operations of the Department of Information Technology and the Information Technology Commission, with emphasis on security, performance and standards, disaster recovery and business continuity;

(c) the status of enterprise-wide information technology initiatives, including statewide network services, SHARE, email, E-911 emergency systems interoperability and service systems; and

(d) the status of initiatives such as Innovative Digital Education and Learning in New Mexico (IDEAL-NM), Smart-Grid initiatives and geospatial information sharing;

(2) hear a report on the status of the supercomputing facility, including its funding, general utilization and enterprise systems;

(3) examine infrastructure related to the management of electronic records in state government;

(4) review alternative energy development, specifically renewable energy resource zones and renewable energy net metering and review the regulation of commercial wind generation and renewable energy transmission facilities;

(5) receive testimony on new technologies from Los Alamos National Laboratory and Sandia National Laboratories, including horizon activities in energy and recommendations to the legislature on these endeavors;

(6) examine the FCC mandate for state and local governments to convert existing mobile radio systems to narrow band KHz by 2013;

- (7) review the use of stimulus funding authorized by the federal American Recovery and Reinvestment Act of 2009 that affects science, technology and telecommunications in the state;
- (8) hear a progress report on the implementation of the New Mexico Research Applications Act;
- (9) review health care technology developments in New Mexico;
- (10) assess the health of the aerospace industry in New Mexico and what incentives might be appropriate and supportive of the industry; and
- (11) study the status of telecommunications competition.
