NEW MEXICO MEDICAID BEHAVIORAL HEALTH
SERVICE UTILIZATION BY COUNTY
CALENDAR YEAR 2014

New Mexico Medicaid Behavioral Health Service Utilization by County Calendar Year 2014

INTRODUCTION

The following is an analysis of Behavioral Health service utilization in CY 2014, the first year of Centennial Care. It brings together information on managed care as well as fee for service.

- Managed care data is compiled from county-level utilization reports from the four managed care organizations: Presbyterian, Molina, Blue Cross/ Blue Shield, and United.
- Detailed information about the types of Behavioral Health services provided was not available for fee for service so this analysis provides service-level detail for only managed care.
- Utilization was analyzed according to the county location of the provider. MCOs also identified services that were performed out-of-state.

The analysis Overview analysis of Managed Care and Fee for Service shows that:

- Overall, 16.8 percent of Medicaid members received Behavioral Health Services in CY2014 (Pg 5).
- While some members in rural and frontier counties receive their services in neighboring urban counties, the percent of members served in each county correlates with the number of members who live in the counties.

The detailed analysis of service utilization in managed care shows:

- Overall in managed care, 18.05 percent of members received Behavioral Health Services (Pg 8). An array of services in all five categories of service were provided to managed care members in all New Mexico counties.
- Members in all age groups received an array of services in each county.

New Mexico Medicaid Behavioral Health Service Utilization by County Calendar Year 2014

Overview

Managed Care and Fee for Service by County

Provides Number of Medicaid Members by County for Managed Care and Fee for Service. Provides number of members who received services in each county and the dollars spent. Also includes Members Served Out-of-State. Analyzes percent of members in each county and percent of members receiving BH services in that county – as well as an overall total number (and percent) of members who received any BH service.

What the Analysis Tells us:

- 16.8 percent of all Medicaid members received a Behavioral Health service in CY 2014
- A total of 132,296 unduplicated members received a BH service with direct service reimbursements of \$248 million (managed care and fee for service)
- While some members in rural and frontier counties receive their services in neighboring urban counties, services were provided in all counties at a level that correlates to the number of members living in the county

BHSD:
16.8% of All Medicaid Members Receiving BH Services

New Mexico Medicaid Behavioral Health Service Utilization by County Calendar Year 2014

Managed Care BH Categories of Service By Age Group

For each county, provides the number of members receiving BH service by Category of Service: Inpatient, Residential, Intensive Outpatient, Recovery, and Outpatient. Also, provides total unduplicated number of members receiving any BH service in the county.

What the Analysis Tells Us:

- In managed care, 18.05 percent of members received Behavioral Health Services. An array of services in all five categories of service were provided to managed care members in all New Mexico counties.
- Members in all age groups received an array of services in each county.
- In managed care, 107,484 unduplicated members received Behavioral health Services in CY 2014 with direct service reimbursements of \$210 million (managed care only)
- While some members in rural and frontier counties receive their services in neighboring urban counties, services were provided in all counties at a level that correlates to the number of members living in the county
