

The National Environmental Policy Act (NEPA) Guides the Environmental Assessment

The *Establishment of Low Altitude Training Draft Environmental Assessment (Draft EA)* analyzes the following resource areas to determine the potential environmental consequences of the Air Force's proposal to establish a training area for various types of C-130 and CV-22 Osprey aircrews.

- **Airspace Management**
- **Noise**
- **Airspace Safety**
- **Air Quality**
- **Biological Resources**
- **Cultural Resources**
- **Land Use and Recreation**
- **Socioeconomics**
- **Environmental Justice**

Your involvement and input are essential to the environmental process.

Your comments will help refine the Draft Environmental Assessment and be considered as the Final Environmental Assessment is prepared.
