

Ute Pipeline Project

- ✓ **Leveraging State money to obtain federal dollars and generate new GRT**
- ✓ **All Federal, State, and Local Funding is encumbered**
- ✓ **Phase I “Reservoir Intake” is under construction and Phase II “Interim Groundwater Pipeline” is being designed**
- ✓ **The Ute Pipeline is a large regional project that meets WTB funding goals**

Although Challenges exist for the fair administration of the Water Project Fund, the WTB is correctly funding projects according to policy, including more funding for regional projects that increase the delivery of water. “

Phase I – Intake is Under Construction

Intake Bench

Vertical Shaft

Tunnel

**Substantial
Completion by
End of
September
2014**
