

NMPEIP New Mexico Companies Investment By Fund Report

New Mexico Based Companies Invested In by Funds in the SIC's New Mexico Private Equity Investment Program

(as of 12/31/12)

Company	Description	Industry	Website	Status
AltaView Technologies	AltaView Technologies develops and deploys systems which collect and transmit human performance/biometrics and environmental information for sports and entertainment purposes.	Media	No website	Exited
Altela	Altela applies proprietary water clean-up technology to eliminate the liability of produced water in the oil and natural gas industry.	Energy	www.altelainc.com	Active
American Clay	American Clay manufactures and distributes clay-based earth plaster to the construction and home remodeling industries.	Cleantech	www.americanclay.com	Active
Amtech Systems	Amtech Systems Corporation provided a wide range of specialized products and services in five primary end-markets: Energy, Radio Frequency (RF) Applications, Research/Medical Applications, Water and Industrial Applications.	Technology	No website	Exited
Aspen Avionics	Aspen Avionics specializes in bringing the most advanced capabilities and technologies from the commercial and business aviation markets into general aviation cockpits.	Aviation	www.aspenavionics.com	Active
Avasca Medical	Avasca developed better, safer arteriomy closure systems for use in such procedures as angioplasty and stents.	Healthcare	No website	Exited
Advent Solar	Advent Solar was a manufacturer of photovoltaic cells for use in industrial, commercial and residential energy production.	Energy	No website	Exited
Bioreason	Bioreason was founded to address the needs of pharmaceutical, biotech, and agricultural product companies in the search for new lead compounds based on large, complex data sources.	Healthcare	No website	Exited
Boomtime	BoomTime is a business-to-business company that specializes in ecommerce functionality for service-based organizations, helping these organizations realize greater revenues and business leads from the Internet, and allowing them to have a real relationship with their clients online.	Technology	www.boomtime.com	Active
Comet Solutions	Comet Solutions provides software for conceptual simulation engineering applications.	Technology	www.cometsolutions.com	Active
Consolidated Energy	Consolidated Energy is unique in the energy business by focusing solely on making environmentally responsible use of opportunity fuels derived from the process of refining crude oil stocks and bio-fuels derived from organic materials which are harvested from non-food related crops.	Energy	www.conenersys.com	Active
Controlled Recovery	Controlled Recovery was a leader in the treatment, recovery and disposal of oil and gas wastes in the Permian Basin.	Energy	No website	Exited

NMPEIP New Mexico Companies Investment By Fund Report

New Mexico Based Companies Invested In by Funds in the SIC's New Mexico Private Equity Investment Program

(as of 12/31/12)

Company	Description	Industry	Website	Status
Desert Power	Desert Power engaged in the repair, rebuild, and restoration of parts and components used in the mining, construction, and natural gas industries.	Energy	No website	Exited
Dining Gift Services	Dining Gift Services will address the substantial and growing consumer market for gifts cards by creating one or more branded gift cards or certificates, redeemable within a broad network of local and independent businesses.	Media	No website	Active
Earthstone	Earthstone's patented technology takes beverage bottles out of the waste stream and puts them to work by creating functional, innovative, and cost-effective industrial, horticultural, and consumer products.	Manufacturing	www.earthstoneinternational.com	Active
Eclipse Aviation	Eclipse Aviation designed and developed a new, twin turbofan jet aircraft, the Eclipse 500.	Aviation	www.eclipseaerospace.net	Exited
Elisar Software	Elisar was an online image security software provider.	Technology	No website	Exited
Enerpulse	Enerpulse has developed a revolutionary new spark plug called PulStar that has up to 10,000 times more than a conventional spark plug without consuming more power from limited on-board power supply.	Cleantech	www.pulstar.com	Active
Entrada	Entrada was a special acquisition fund created in 2004 for the sole purpose of buying out and restructuring a single manufacturing company and completed the acquisition of MIOX Corporation in September 2005, whereupon Entrada CEO Carlos Perea assumed managerial responsibilities.	Cleantech	No website	Exited
Exagen Diagnostics	Exagen is a molecular diagnostics company focusing on the rapid discovery, validation and commercialization of genomic marker tests across a variety of disease states.	Healthcare	www.exagen.com	Active
Figaro Systems	Figaro provides seatback and wireless tilting software and system installations to opera houses and other music performance venues worldwide.	Media	www.figaro-systems.com	Active
Growstone	Growstone uses a proprietary manufacturing process to create agricultural products that are customizable and have broad market applications.	Manufacturing	www.growstone.com	Active
Holochip	Holochip develops and manufactures adaptive polymer lenses that meet the most demanding technical requirements, enabling engineers, scientists, and consumers with innovative solutions for utilizing and manipulating light.	Technology	www.holochip.com	Active
Incitor	Incitor is developing a proprietary process to turn waste biomass into valuable products: fuel, additives, petrochemical replacements and specialty chemicals.	Energy	www.incitor.com	Active
Infantelligence	Infantelligence created a new parenting magazine devoted to early learning that launched in January 2001.	Media	No website	Exited
Innovasic Semiconductor	Innovasic designs, builds and sells complex, highly integrated embedded microcontroller solutions and peripheral IC's into the industrial, medical, automotive, consumer, communications and military markets.	Technology	www.innovasic.com	Active

NMPEIP New Mexico Companies Investment By Fund Report

New Mexico Based Companies Invested In by Funds in the SIC's New Mexico Private Equity Investment Program

(as of 12/31/12)

Company	Description	Industry	Website	Status
Intellicyt	Intellicyt is a life science hardware, software and services company that develops, manufactures, sells, and supports innovative products for flow cytometers to be used in high-throughput screening applications in the life sciences.	Healthcare	www.intellicyt.com	Active
Introbotics	Introbotics was focused on the high frequency programmer's work bench testing research and was a leading supplier of testing equipment and services to the circuit board industry.	Technology	www.introbotics.com	Exited
Iosil Energy	Iosil Energy produces high-purity solar grade polysilicon for the photovoltaic industry. Iosil utilizes an innovative process to recycle waste material from wafer sawing operations to produce high-purity polysilicon more economically than from virgin materials while lowering the carbon footprint of silicon manufacturing.	Energy	www.iosilenergy.com	Active
JackRabbit Systems	JackRabbit Systems develops online travel software for destination and travel portal websites.	Technology	www.jackrabbitsystems.com	Active
Kinetisis	Kinetisis applied kinetic-energy-activated molecular-beam epitaxy, a crystal growth technique, to develop and market novel microelectronic and optoelectronic products and devices.	Technology	No website	Exited
Lumidigm	Lumidigm is a biometric company dedicated to enabling convenient, secure, and reliable identification and verification.	Technology	www.lumidigm.com	Active
MesoFuel	MesoFuel was a specialist in the development of small-scale devices for the conversion of liquid and gaseous hydrocarbons into pure hydrogen for storage and for use in PEM and other fuel cells.	Energy	No website	Exited
Metaphor	Metaphor was founded to develop a new approach in developing custom Integrated Circuits. Software-Defined Programmable Logic was developed by the company, and it allows customers to define a custom IC using a software development methodology.	Technology	No website	Exited
MicroOptical Devices	MicroOptical Devices was a developer of optical components and subsystems based on VCSEL technology.	Technology	No website	Exited
MIOX Corporation	MIOX produces capital equipment for the on-site generation of a chlorine-based water disinfectant solution for municipal, waste water, recreational and other markets.	Cleantech	www.miox.com	Active
Nanocrystal	Nanocrystal is a development stage company focused on the commercialization of Gallium Nitride production technology for use in the manufacturing of ultra low defect-density GaN material for applications in high performance optoelectronic and microelectronic devices.	Technology	No website	Active
NanoMR	NanoMR is a diagnostic medical device company currently developing a proprietary system for real time, ultrasensitive detection of diagnostic targets in biological samples that can deliver unprecedented sensitivity and speed-to-detection in a wide variety of clinically relevant diagnostic applications.	Healthcare	www.nanomr.com	Active
Noribachi	Noribachi is an early stage venture accelerator focused on building successful clean technology companies.	Cleantech	www.noribachi.com	Active

NMPEIP New Mexico Companies Investment By Fund Report

New Mexico Based Companies Invested In by Funds in the SIC's New Mexico Private Equity Investment Program
(as of 12/31/12)

Company	Description	Industry	Website	Status
Nuvita	Nuvita combines leading-edge science, technology and innovative distribution to improve individual health and reduce the risk of disease and ultimately decrease health care costs for providers, employers and individuals through employer hosted services.	Technology	www.nuvita.com	Active
OnQueue Technologies	OnQueue provides a "cloud-based" service bureau for iPhone / iPod Touch developers, advertisers, agencies and publishers offering services including: "push" notification, analytics, ad network, location-based services, and dynamic updates.	Technology	www.onqueuetechologies.com	Active
Patchwork Systems	Patchwork's premier product, PAT, was created to simplify the impacts of patching Oracle Applications.	Technology	No website	Exited
PHASE-I	PHASE-1 was founded as a toxicogenomics company, the first commercial toxicogenomics corporation in world history.	Healthcare	No website	Exited
Protalex	Protalex is a biotechnology company developing a novel, new class of drugs for the treatment of various autoimmune disorders.	Healthcare	www.protalex.com	Active
ProtoHIT	ProtoHIT designs and markets workers' compensation delivery treatment optimization software for physicians, clinics, self-insured employers & carriers that provides a single approval protocol treatment system directly to healthcare providers.	Technology	www.protohit.com	Active
Puente Partners	Puente Partners, modeled off Southwest Medical Ventures, is an investment vehicle to create and launch start-up life science companies. Waneta Tuttle, the CEO, leverages her experience with Southwest Medical Ventures to help other entrepreneurs launch and structure venture fundable companies.	Healthcare	No website	Active
Quasar International	Quasar serviced the nondestructive inspection market in automotive component manufacturing with a new, proprietary technology called Resonant Inspection.	Technology	www.quasarintl.com	Exited
Seattle Fish Company	Seattle Fish Company of New Mexico, with operations in Albuquerque and El Paso, offers the finest fresh and frozen fish and seafood in the Southwest.	Distribution	www.seattlefishnm.com	Exited
Seclarity Corporation	Seclarity, an information security technology company, developed hardware-based enterprise solutions for users, applications, and operating systems in the United States and internationally.	Technology	No website	Exited
Skorpios Technologies	Skorpios Technologies is a silicon photonics company focused on bringing the economy and scale of the silicon industry to the optical communications market by integrating optical functions directly onto CMOS.	Technology	www.skorpiosinc.com	Active
Southwest Medical Technologies	Southwest Medical Technologies is a healthcare technology development firm established to commercialize life sciences technologies in New Mexico.	Healthcare	No website	Active
Sundrop Fuels	Sundrop Fuels has developed technology to convert biomass into fuels that can be used for transportation and energy production.	Energy	www.sundropfuels.com	Active

New Mexico Based Companies Invested In by Funds in the SIC's New Mexico Private Equity Investment Program
(as of 12/31/12)

Company	Description	Industry	Website	Status
Surfact Technologies	Surfact provided advanced interconnect and packaging solutions for Solar Cell, LED and Power Management applications.	Technology	No website	Exited
TCI Medical	TCI Medical was founded to bring innovative product solutions to the world marketplace for medical diagnostics and treatment in diagnostic imaging and nuclear medicine systems.	Healthcare	No website	Exited
Teucrium Trading	Teucrium Trading is an issuer of single commodity focused next generation Exchange Traded Products in the agricultural and energy sectors.	Financial	www.teucrium.com	Active
Tred Displays	Blixel (fka TRED Displays) developed the first low-cost, reflective, "green-tech" digital display that can be seamlessly integrated with large format, outdoor graphics signs.	Technology	No website	Exited
TriLumina	TriLumina Corporation is a fabless semiconductor laser company with a new and disruptive platform technology capable of powering hundreds of individual lasers operating in perfect synchronization at exceedingly high speeds and power.	Technology	www.trilumina.com	Active
TruTouch Technologies	TruTouch is a medical device company that manufactures and sells products that measure blood alcohol level using a patented non-invasive technology.	Technology	www.trutouchtechnologies.com	Active
VeraLight	VeraLight is a medical device company targeting a comprehensive approach to non-invasive type 2 diabetes and pre-diabetes screening.	Healthcare	www.veralight.com	Active
Vertical Power	Vertical Power offers a new way to wire and fly experimental aircraft.	Aviation	www.verticalpower.com	Active
Vibrant	Vibrant is a spin off of Mechtronic Solutions that has commercialized Process Compensated Resonance Testing for use in the aerospace and power generation industries.	Technology	www.vibrantndt.com	Active
WellKeeper	WellKeeper was formed to develop reliable, dependable and affordable remote monitoring solutions for independent oil and gas operators.	Energy	www.wellkeeper.com	Active
Zia Laser	Zia Laser was a leading innovator and manufacturer of Quantum Dot semiconductor lasers.	Technology	No website	Exited
ZTEC Instruments	ZTEC Instruments is a pioneering instrument design and manufacturing company whose products include modular digital oscilloscopes, waveform generators, RF frequency counters, RF power meters and timing references.	Technology	www.ztecinstruments.com	Active
