Information Memorandum

TO: Interested Persons

FROM: Legislative Council Service

SUBJECT: CONFLICTS

Attached is a list of possible conflicts between two or more bills, including all action taken up to the date of this report.

The list shows the sections of the New Mexico Statutes Annotated (NMSA 1978), the bill or chapter numbers and the primary sponsors.

This list includes only bills that propose to amend or repeal existing sections of the NMSA 1978, or bills that specifically assign new NMSA 1978 section numbers to the bills' provisions. Other bills that propose new sections of the NMSA 1978 may conflict but are not listed here because compilation numbers have not been assigned.

Bills identified as having potential conflicts should be read in light of the New Mexico Supreme Court decision in *New Mexico v. Smith*, stating that when two or more acts are enacted during the same session that amend the same section of law and there is no conflict, the acts are law and must be read together so as to give effect to each when possible.

Laws 2013, Chapter 176 (House Bill 546) provides for reconciliation by the New Mexico Compilation Commission of multiple amendments to the same section of law when those amendments are reconcilable, in which case the commission will incorporate the provisions of the multiple amendments into the compiled section of law. However, if a conflict is irreconcilable, the later-enacted statute will generally govern. Ultimately, whether there is an actual or perceived conflict, the courts determine which law rules.

Regardless of whether there is an actual conflict or not, multiple amendments to the same section of law may create uncertainty and should, therefore, be avoided. The Legislative Council Service can work with the sponsors of bills to resolve conflicts.
