

New Mexico Task Force for School Libraries

305 Quincy NE, Albuquerque NM 87108 | 505.265.4949

Omar Durant, Co-Chair

Carol Sarath, Co-Chair

Rachel Altobelli, NMTFSL, and Mara Minwegan, Van Buren Middle School, presenting November 14, 2012

The New Mexico Task Force for School Libraries has an ongoing role in seeking school library improvements in cooperation with the New Mexico Library Association, the State Department of Education and the State Board of Education.

History of Support for School Libraries

- For decades, the LESC's support has improved school libraries and increased equitable access to resources for New Mexico's students.
- Every two years, the LESC has helped get General Obligation Bond funding on the ballot.
- In 2003, the LESC helped establish the School Library Materials Fund.
- The combination of GO Bond, SLMF, and funds from school budgets helped New Mexico's public school libraries provide students with current resources.
- This currency, along with equitable access to resources for all students, could slip away.
- School libraries are more vital than ever, but it's imperative they provide a mix of traditional services and access to exciting new resources.
 - **Current books** – students need accurate, up-to-date information and appealing new titles that encourage them to love reading and learning.
 - **Online reference** – encyclopedias like World Book or Britannica are now available as online subscriptions, providing information that is never out-of-date.
 - **Access to technology** – many school libraries, especially in rural areas, are one of the few places students use computers and other new technologies.
 - **NM State Library resources** – there is a wealth of high-quality information online, paid for by the State Library, that students can access if they have computers, internet, and teacher-librarians to show them how.
 - **Common Core Standards** – school libraries and librarians provide essential support.
- The School Library Materials Fund was created to serve a specific purpose, one that persists.

\$3,000,000 for the SLMF would combine with GO B Bond funding to bolster school libraries

- GO Bond B, approved by 62% of New Mexico's voters, will send \$3,000,000 to public school libraries. On average, this translates into approximately \$8.95/student, spread out over two years (\$4.50/student each year).
- If SLMF was funded in the same amount, \$3,000,000, New Mexico's school libraries would receive another \$8.95/student this year.
- **This would combine for a total of approximately \$17.91 per student**, which would be enough to buy one new book or resource for each New Mexico public school student, and provide a vital supplement to the funding school libraries receive from their schools' budgets.

Importance and Opportunities

- We have an exciting chance to significantly improve existing public school library collections and continue broadening their collections to include new and vital electronic sources of information.
- With your support, we can keep equitable resources in our school libraries.
- With this funding, our public school libraries can continue to provide the books and instruction they always have, and expand to help our students become technology-savvy citizens of a fast-changing and competitive digital world.
- Strong, well-funded school libraries, staffed with highly qualified teacher-librarians, make a positive difference in students' lives.
 - Studies have shown that strong school library programs can help raise test scores.
 - Kids still love to read, and school libraries can provide them with endless sources of knowledge, entertainment, and inspiration.
 - Libraries are safe spaces for students.
 - Today's students need to learn to use computers, technology, and online resources; their school libraries can help them across all content areas.
- New Mexico's public school libraries work to prepare our students for college and careers, by encouraging them to love learning and reading, and giving them the skills to navigate and use college libraries and public libraries throughout their lives.

A \$3,000,000 allocation in the School Library Materials Fund would help all our public school students

- Combined with the recently approved GO Bond funding, and the funds schools are able to allocate to their libraries, SLMF funding in the amount of \$3,000,000 would help New Mexico public school libraries:
 - support literacy efforts;
 - ensure equitable access to up-to-date and attractive library materials, including traditional printed materials and new online resources;
 - help districts reach assessment goals;
 - support the goals of the Common Core Standards;
 - encourage all public school students to become lifelong learners, readers, and successful citizens of a competitive and global world.

**New Mexico Academic Libraries
2012 General Obligation Bonds: \$3,000,000
Projected Allocations (by I. Rodarte)**

In this projected distribution, 30% of \$3,000,000 goes to joint initiative and the remaining balance (\$2,100,000) is distributed accordingly as shown in column H (\$14.797 per FTE). Projected distributions are based on Fall 2010 FTE; Fall 2012 FTE figures will be used for the final distribution. Research and Comprehensive Libraries FTE = 1.3 greater than two year colleges and where graduate FTE is 4.4 greater.

for: **Douglas, Gabby** [Magazine Articles](#)

Douglas, Gabby (1995- ...), an American gymnast, was a star of the 2012 Summer Olympic Games in London. Douglas won gold medals in both the individual all-around and team events. She became the first African American in Olympic history to win the individual all-around championship. She was also the first American gymnast to win gold medals in the individual all-around and team competitions at the same Olympic Games. Douglas's grace and athleticism and her outgoing personality made her one of the most popular athletes at the games. For a description of the gymnastics events mentioned in this article, see [Gymnastics \(Women's events\)](#).

Gabrielle Christina Victoria Douglas was born on Dec. 31, 1995, in Virginia Beach, Virginia. She began training in gymnastics when she was 6 years old. At the age of 8, she won the all-around gymnastics title for her level at the 2004 Virginia State Championships. When she was 14, Douglas moved from Virginia Beach to West Des Moines, Iowa, to train under Liang Chow. Chow had coached the 2007 world champion and 2008 Olympics gold medalist Shawn Johnson. The rest of Douglas's family remained in Virginia. While she trained in West Des Moines, Douglas lived with, and was home schooled by, a host family.

Douglas began competing nationally in 2010. At the 2010 Pan American Championships, she won the uneven bars event. She also shared the team gold medal won by the United States. At the 2011 World Championships, Douglas competed on the American team that won the gold medal. She placed fifth in the uneven bars event. At the 2012 National Championships held before the Olympics, Douglas won the gold medal in uneven bars, the silver medal in the all-around competition, and the bronze medal in the floor exercise.

Title:
Researchers Equip Robot Sub With Sensory System Inspired By Blind Fish

Source:
Space Daily. (Apr. 1, 2010): From *General OneFile*.

Document Type: Article

Full Text: Space Daily, Distributed by United Press International.

Full Text:

Byline: Staff Writers

Munich, Germany (SPX) Apr 01, 2010, 2010 Clever as a blind **fish**, the underwater **robot** "Snookie" can orient itself in murky waters with an artificial sensory organ inspired by the so-called lateral-line system, found in **fish** and some amphibians. The experimental vehicle was developed by researchers at the Technische Universitaet Muenchen within the framework of the CoTeSys (Cognition for Technical Systems) excellence cluster.

In the future, the researchers expect such capabilities to enable underwater **robots** to work autonomously in operations ranging from deep sea exploration to inspection of sewer pipes.

Reading Standards for Informational Text K-5

RI

Grade 3 students:	Grade 4 students:	Grade 5 students:
Key Ideas and Details		
1. Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.	1. Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text.	1. Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.
2. Determine the main idea of a text; recount the key details and explain how they support the main idea.	2. Determine the main idea of a text and explain how it is supported by key details; summarize the text.	2. Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text.
3. Describe the relationship between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text, using language that pertains to time, sequence, and cause/effect.	3. Explain events, procedures, ideas, or concepts in a historical, scientific, or technical text, including what happened and why, based on specific information in the text.	3. Explain the relationships or interactions between two or more individuals, events, ideas, or concepts in a historical, scientific, or technical text based on specific information in the text.
Craft and Structure		
4. Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a <i>grade 3 topic or subject area</i> .	4. Determine the meaning of general academic and domain-specific words or phrases in a text relevant to a <i>grade 4 topic or subject area</i> .	4. Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a <i>grade 5 topic or subject area</i> .
5. Use text features and search tools (e.g., key words, sidebars, hyperlinks) to locate information relevant to a given topic efficiently.	5. Describe the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in a text or part of a text.	5. Compare and contrast the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in two or more texts.
6. Distinguish their own point of view from that of the author of a text.	6. Compare and contrast a firsthand and secondhand account of the same event or topic; describe the differences in focus and the information provided.	6. Analyze multiple accounts of the same event or topic, noting important similarities and differences in the point of view they represent.
Integration of Knowledge and Ideas		
7. Use information gained from illustrations (e.g., maps, photographs) and the words in a text to demonstrate understanding of the text (e.g., where, when, why, and how key events occur).	7. Interpret information presented visually, orally, or quantitatively (e.g., in charts, graphs, diagrams, time lines, animations, or interactive elements on Web pages) and explain how the information contributes to an understanding of the text in which it appears.	7. Draw on information from multiple print or digital sources, demonstrating the ability to locate an answer to a question quickly or to solve a problem efficiently.
8. Describe the logical connection between particular sentences and paragraphs in a text (e.g., comparison, cause/effect, first/second/third in a sequence).	8. Explain how an author uses reasons and evidence to support particular points in a text.	8. Explain how an author uses reasons and evidence to support particular points in a text, identifying which reasons and evidence support which point(s).
9. Compare and contrast the most important points and key details presented in two texts on the same topic.	9. Integrate information from two texts on the same topic in order to write or speak about the subject knowledgeably.	9. Integrate information from several texts on the same topic in order to write or speak about the subject knowledgeably.
Range of Reading and Level of Text Complexity		
10. By the end of the year, read and comprehend informational texts, including history/social studies, science, and technical texts, at the high end of the grades 2-3 text complexity band independently and proficiently.	10. By the end of year, read and comprehend informational texts, including history/social studies, science, and technical texts, in the grades 4-5 text complexity band proficiently, with scaffolding as needed at the high end of the range.	10. By the end of the year, read and comprehend informational texts, including history/social studies, science, and technical texts, at the high end of the grades 4-5 text complexity band independently and proficiently.

\$3,000,000 for the SLMF would combine with GO B Bond funding to bolster school libraries

- GO Bond B: \$8.95/student, spread out over two years (\$4.50/student each year).
- If SLMF was funded in the same amount, \$3,000,000, New Mexico's school libraries would receive another \$8.95/student this year.
- **This would combine for a total of \$17.90 per student**, enough to buy one new book or resource for each New Mexico public school student.
