AN ACT

MAKING GENERAL APPROPRIATIONS AND AUTHORIZING EXPENDITURES BY STATE AGENCIES REQUIRED BY LAW.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

- 4 Section 1. SHORT TITLE.--This act may be cited as the "General Appropriation Act of 2001".
- 5 Section 2. **DEFINITIONS**.--As used in the General Appropriation Act of 2001:
- A. "activity" is a strategy or work process designed to achieve a common purpose with a given set of inputs, one or more of which constitute a program;
- 8 B. "agency" means an office, department, agency, institution, board, bureau, commission,9 court, district attorney, council or committee of state government;
- 10 C. "efficiency measure" is a indicator of the cost of an activity in dollars or employee
 11 hours per unit of output or outcome;
- D. "expenditures" means costs, expenses, encumbrances and other financing uses, other than refunds authorized by law, recognized in accordance with generally accepted accounting principles for the legally authorized budget amounts and budget period;
- 15 E. "explanatory data" means information that can help users to understand reported
 16 performance measures and to evaluate the significance of underlying factors that may have affected the
 17 reported information;
- 18 F. "federal funds" means any payments by the United States government to state government or agencies except those payments made in accordance with the federal Mineral Lands Leasing Act;
- 20 G. "full-time equivalent" or "FTE" means one or more authorized positions that together
 21 receive compensation for not more than two thousand eighty hours worked in fiscal year 2002. The
 22 calculation of hours worked includes compensated absences but does not include overtime, compensatory time
 23 or sick leave paid pursuant to Section 10-7-10 NMSA 1978;
- 24 H. "general fund" means that fund created by Section 6-4-2 NMSA 1978 and includes federal
 25 Mineral Lands Leasing Act receipts and those payments made in accordance with the federal block grant and

the federal Workforce Investment Act, but excludes the general fund operating reserve and the appropriation contingency fund; 3 I. "interagency transfers" means revenue, other than internal service funds, legally 4 transferred from one agency to another; 5 J. "internal service funds" means: 6 (1) revenue transferred to an agency for the financing of goods or services to another 7 agency on a cost-reimbursement basis; and 8 (2) unencumbered balances in agency internal service fund accounts appropriated by the General Appropriation Act of 2001; 10 K. "other state funds" means: 11 (1) unencumbered, nonreverting balances in agency accounts, other than in internal 12 service funds accounts, appropriated by the General Appropriation Act of 2001; 13 (2) all revenue available to agencies from sources other than the general fund, internal 14 service funds, interagency transfers and federal funds; and 15 (3) all revenue, the use of which is restricted by statute or agreement; 16 L. "outcome measure" is an indicator of the accomplishments or results that occur because of 17 services provided by a program and is a measure of the actual impact or public benefit of a program; 18 M. "output measure" is an indicator of the physical quantity of a service or product 19 delivered by an activity or program; 20 N. "performance measure" means a quantitative or qualitative indicator used to assess a state 21 agency's performance; 22 O. "program" means a set of activities undertaken in accordance with a plan of action 23 organized to realize identifiable goals and objectives based on legislative authorization; 24 P. "quality measure" is an indicator of the quality of a good or service produced and is

25 often an indicator of the timeliness, reliability or safety of services or products produced by a

1 program;

5

- Q. "revenue" means all money received by an agency from sources external to that agency, net

 of refunds and other correcting transactions, other than from issue of debt, liquidation of investments or

 as agent or trustee for other governmental entities or private persons;
 - R. "target" means the expected level of performance of a program's performance measures; and
- S. "unforeseen federal funds" means a source of federal funds or an increased amount of
 federal funds that could not have been reasonably anticipated or known during the first session of the
 forty-fifth legislature and, therefore, could not have been requested by an agency or appropriated by the
 legislature.
- 10 Section 3. GENERAL PROVISIONS.--
- 11 A. Amounts set out under column headings are expressed in thousands of dollars.
- B. Amounts set out under column headings are appropriated from the source indicated by the column heading. All amounts set out under the column heading "Internal Service Funds/Interagency
 Transfers" indicate an intergovernmental transfer and do not represent a portion of total state government appropriations. All information designated as "Totals" or "Subtotals" are provided for information and are not appropriations.
- 17 C. Amounts set out in Section 4 and Section 5 of the General Appropriation Act of 2001, or so
 18 much as may be necessary, are appropriated from the indicated source for expenditure in fiscal year 2002
 19 for the objects expressed.
- D. Unencumbered balances in agency accounts remaining at the end of fiscal year 2001 shall revert to the general fund by October 1, 2001, unless otherwise indicated in the General Appropriation Act of 2001 or otherwise provided by law.
- E. Unencumbered balances in agency accounts remaining at the end of fiscal year 2002 shall revert to the general fund by October 1, 2002, unless otherwise indicated in the General Appropriation Act of 2001 or otherwise provided by law.

F. The state budget division shall monitor revenue received by agencies from sources other than the general fund and shall reduce the operating budget of any agency whose revenue from such sources is not meeting projections. The state budget division shall notify the legislative finance committee of any operating budget reduced pursuant to this subsection.

- G. Except as otherwise specifically stated in the General Appropriation Act of 2001, appropriations are made in that act for the expenditures of agencies and for other purposes as required by existing law for fiscal year 2002. If any other act of the first session of the forty-fifth legislature changes existing law with regard to the name or responsibilities of an agency or the name or purpose of a fund or distribution, the appropriation made in the General Appropriation Act of 2001 shall be transferred from the agency, fund or distribution to which an appropriation has been made as required by existing law to the appropriate agency, fund or distribution provided by the new law.
- H. In August, October, December and May of fiscal year 2002, the department of finance and administration, in consultation with the staff of the legislative finance committee and other agencies, shall prepare and present revenue estimates to the legislative finance committee. If these revenue estimates indicate that revenues and transfers to the general fund, excluding transfers to the general fund operating reserve, the appropriation contingency fund or the state-support reserve fund, as of the end of fiscal year 2002, are not expected to meet appropriations from the general fund, then the department shall present a plan to the legislative finance committee that outlines the methods by which the administration proposes to address the deficit.
- I. Pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978, agencies whose revenue from unforeseen federal funds, from state board of finance loans, from revenue appropriated by other acts of the legislature, or from gifts, grants, donations, bequests, insurance settlements, refunds, or payments into revolving funds which exceed specifically appropriated amounts, may request budget increases from the state budget division. If approved by the state budget division, such money is appropriated. In approving a budget increase from unforeseen federal funds, the director of the state budget division shall

			Other	IIICIIII SVC			
		General	State	Funds/Inter-	Federal		
	Item	Fund	Funds	Agency Trnsf	Funds	Total/Target	
1	advise the legislative finance committee	as to the s	source of th	ne federal funds	and the sour	rce and amount	
2	of any matching funds required.						
3	J. For fiscal year 2002, the	e number of	permanent a	and term full-tim	e equivalent	positions	
4	specified for each agency shows the maxim	mum number o	of employees	intended by the	legislature	e for that	
5	agency, unless another provision of the G	General Appr	copriation A	act of 2001 or an	other act of	the first	
6	session of the forty-fifth legislature provides for additional employees.						
7	K. Except for gasoline credit cards used solely for operation of official vehicles and						
8	telephone credit cards used solely for official business, none of the appropriations contained in the						
9	General Appropriation Act of 2001 may be expended for payment of credit card invoices.						
10	L. To prevent unnecessary spending, expenditures from the General Appropriation Act of 2001						
11	for gasoline for state-owned vehicles at public gasoline service stations shall be made only for						
12	self-service gasoline; provided that a st	tate agency	head may pr	ovide exceptions	from the re	equirement to	
13	accommodate disabled persons or for other	r reasons th	ne public in	iterest may requi	re.		
14	M. When approving operating	budgets bas	sed on appro	priations in the	General App	propriation Act	
15	of 2001, the state budget division is spe	ecifically a	authorized t	o approve only t	hose budgets	that are in	
16	accordance with generally accepted accoun	nting princi	ples for th	e purpose of pro	perly classi	fying other	
17	financing sources and uses, including int	terfund, int	rafund and	interagency tran	sfers.		
18	N. No money appropriated in	the General	Appropriat	ion Act of 2001	shall be use	ed to promote	
19	the legalization or decriminalization of	controlled	substances.

Upon certification by the state board of finance pursuant to Section 6-1-2 NMSA 1978 that a critical emergency exists that cannot be addressed by disaster declaration or other emergency or contingency funds, and upon review by the legislative finance committee, the secretary of the department of finance and administration is authorized to transfer from the general fund operating reserve to the state board of finance emergency fund the amount necessary to meet the emergency. Such transfers shall not exceed an aggregate amount of five hundred thousand dollars (\$500,000) in fiscal year 2002. Repayments of emergency loans made pursuant to this paragraph shall be deposited in the board of finance emergency fund pursuant to the provisions of Section 6-1-5 NMSA 1978; provided that, after the total amounts deposited in fiscal year 2002 exceed two hundred fifty thousand dollars (\$250,000), any additional repayments shall be transferred to the general fund.

The general fund appropriation to the big brothers and big sisters programs includes fifty thousand dollars (\$50,000) to support the big brothers and big sisters programs in Chaves and Eddy counties.

The general fund appropriation to the state department of public education for the summer school literacy program includes one hundred thousand dollars (\$100,000) for Los Amigos camp.

The other state funds appropriation to the state department of public education includes two hundred seventy-five thousand dollars (\$275,000) from the tobacco settlement program fund for the New Mexico media literacy project.

The general fund appropriation to the state department of public education for business and professional teachers is to provide economic education instruction.

The general fund appropriation to the state department of public education for the rapid response intervention program is to begin a pilot project. The appropriation may be expended to conduct reading and writing assessments, to provide graduated grants for the identified pilot schools and to employ or contract for rapid response intervention team members. The appropriation is contingent on the House Appropriations and Finance Committee Substitute for House Bill 949 or similar legislation of the first session of the forty-fifth legislature, becoming law.

6		(b) Emergency supplemental	990.6				990.6
7		(c) Emergency capital outlay	479.0				479.0

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the superintendent of public instruction. The superintendent of public instruction shall establish a preliminary unit value to establish budgets for the 2001-2002 school year; and then upon verification of the number of units statewide for fiscal year 2002 but no later than January 31, the superintendent of public instruction may adjust the program unit value.

The general fund appropriation for the state equalization guarantee distribution contains sufficient funds to provide an eight percent salary increase for teachers, and a six and one-half percent increase for other instructional staff, certified and noncertified staff. Prior to the approval of a district's budget, the state superintendent of public instruction shall verify that each local school board is providing the eight percent increase for teachers. The appropriation for the transportation distribution contains sufficient funding to provide a statewide average six and one-half percent salary increase for transportation employees.

The general fund appropriation for the state equalization guarantee distribution includes three million five hundred thousand dollars (\$3,500,000) for expenditure in fiscal year 2002. The appropriation is contingent on House Appropriations and Finance Committee Substitute for House Bill 949 or similar legislation of the first session of the forty-fifth legislature, becoming law and on the certification, before September 1, 2001, by the superintendent of public instruction that the federal government has allowed the state to calculate disparity on the unit value.

		Other	Intrn1 Svc		
	General	State	Funds/Inter-	Federal	
Item	Fund	Funds	Agency Trnsf	Funds	Total/Target

The general fund appropriation for the state equalization guarantee distribution includes three million five hundred dollars (\$3,500,000) for the state department of public education in fiscal year 2002 to conduct the rapid response intervention program pilot project. The appropriation is contingent on House Appropriations and Finance Committee Substitute for House Bill 949 or similar legislation of the first session of the forty-fifth legislature, becoming law, and shall be expended only if the superintendent of public instruction does not make the certification pursuant to the previous paragraph of this subsection pertaining to the calculation of disparity.

The general fund appropriation for the state equalization guarantee distribution includes four million dollars (\$4,000,000) for enrollment growth, contingent on House Bill 23 or similar legislation of the first session of the forty-fifth legislature, becoming law; and one million two hundred thousand dollars (\$1,200,000) for the at-risk factor, contingent on House Bill 49 or similar legislation of the first session of the forty-fifth legislature, becoming law.

The general fund appropriation in the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et. seq., formerly known as "PL 874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

For the 2001-2002 school year, the state equalization guarantee contains sufficient funding for districts implementing a formula-based program for the first time. Those districts shall use current year MEM in the calculation of program units for the new formula-based program.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2002 from appropriations made from the general fund shall revert to the general fund.

14	Section 5. PERFORMANCE-BASED BUD	GET APPROPRIAT	IONSThe	following amoun	ts are approp	riated from the
15	general fund or other funds as indicat	ed for the purp	poses speci:	fied for expend	iture in fisc	al year 2002.
16	Unless otherwise indicated, any unexpe	nded or unencu	mbered bala	nce of the appr	opriations re	maining at the
17	end of fiscal year 2002 shall revert t	o the appropria	ate fund.			
18	Under guidelines developed	by the state l	budget divi	sion, in consul	tation with t	he legislative
19	finance committee, each agency for whi	ch appropriation	ons are made	e or for which	performance m	easures are
20	established in this section shall file	a report with	the state l	oudget division	and the legi	slative finance
21	committee analyzing the agency's perfo	rmance relative	e to the per	rformance measu	res and targe	ts in this
22	section. The reports shall be submitt	ed quarterly fo	or certain p	performance mea	sures and aft	er the end of
23	fiscal year 2002 for the remaining mea	sures. The sta	ate budget (division, in co	nsultation wi	th the
24	legislative finance committee, shall d	-			_	
25	The reports shall compare actual perfo	rmance for the	report per	iod with target	ed performanc	e based on the

		Other	Intrn1 Svc		
	General	State	Funds/Inter-	Federal	
Item	Fund	Funds	Agency Trnsf	Funds	Total/Target

level of funding appropriated. In developing quidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, shall establish standards for the reporting of variances between actual and targeted performance levels. The reports filed with the state budget division and the legislative finance committee analyzing agency performance shall include a detailed listing and summary of changes in fees imposed by the agency and a detailed listing and summary of all changes of rules by the agency. Each of the summaries must include the agency's justification for the change in addition to any relevant meeting notes from the public hearing where the action occurred. The quarterly and year-end reports for the period ending June 30, 2002, shall be filed with the state budget division and the legislative finance committee on or before September 1. 2002.

Accountability in Government Act by emphasizing measures that are meaningful to the public and measures that cross agency lines by including them in the General Appropriation Act of 2001 and the Supplemental Performance Measures and Targets Act. The legislature expects implementation of the Accountability in Government Act to improve as additional agencies submit performance-based budget requests and as agencies, the department of finance and administration and the legislative finance committee continue to cooperate on the development of programs, performance measures and targets. For those agencies that have already submitted performance-based program budgets, the legislature expects continued refinement of measures to improve their consistency, reliability and relevance, and continued emphasis on defining and measuring the constituent activities of a program.

Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2002. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data for fiscal year 2002 and to propose targets when submitting budget requests for fiscal year 2003.

The appropriations to the irrigation works construction fund programs of the state engineer include: (a) one million two hundred thousand dollars (\$1,200,000) to match seventeen and one-half percent of the cost of work undertaken by the United States army corps of engineers pursuant to the Federal Water Resources Development Act of 1986; provided that no amount of this appropriation shall be expended for any project unless the appropriate acequia system or community ditch has agreed to provide seven and one-half percent of the cost and provided that no more than two hundred and fifty thousand dollars (\$250,000) shall be appropriated to one acequia per fiscal year; (b) two hundred fifty thousand dollars (\$250,000) for the planning, design, supervision of construction, and construction of approved acequia improvement projects in cooperation with the United States department of agriculture, natural resources conservation service; and (c) one hundred fifty thousand dollars (\$150,000) for the construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state, provided that not more than sixty thousand dollars (\$60,000) of this appropriation shall be used for any one community ditch. The state engineer may enter into cooperative agreements with the owners or commissioners of ditch associations to ensure that work is done in the most efficient and economical manner and may contract with the federal government or any of its agencies or instrumentalities that provide matching funds or assistance. No state funds other than loans may be used to meet the acequia's twenty percent share of the total cost of the project.

The appropriations to the irrigation works construction fund programs of the state engineer include (a) grants, in such amounts as determined by the interstate stream commission, for construction, improvement, repair and protection from floods of dams, reservoirs, ditches, flumes and appurtenances of community ditches in the state located on Indian land whether pueblo or reservation; (b) loans to irrigation districts and soil and water conservation districts for re-loan to farmers for implementation of water conservation improvements that shall not exceed two million five hundred thousand dollars (\$2,500,000); and (c) small loans to acequias and community ditches for construction of improvements that

1,007.00 Permanent; 306.00 Term Authorized FTE:

One million five hundred thousand dollars (\$1,500,000) of the general fund appropriations made to the department of health in Subsection F of Section 4 of Chapter 5 of Laws 2000 (S.S.) shall not revert at the end of fiscal year 2001 and is re-appropriated from other state funds to the medicaid waivers activity of the long-term care program of the department of health.

The general fund and other state funds appropriation to the long-term care program of the department of health in the other financing uses category includes two million dollars (\$2,000,000) to provide increased reimbursement rates for developmental disabilities and disabled and elderly service providers, and to provide assistance to community-based providers to expand residential capacity for new clients with developmental disabilities; and seven million five hundred eighty-three thousand four hundred dollars (\$7,583,400) to provide developmental disabilities services to individuals not being served.

The general fund appropriation to the long-term care program of the department of health in the other financing uses category includes seventy-five thousand dollars (\$75,000) to be transferred to the developmental disabilities planning council for an ombudsman program.

The general fund appropriation to the long-term care program of the department of health in the contractual services category includes ten thousand dollars (\$10,000) for special olympics.

Unexpended or unencumbered balances remaining at the end of fiscal year 2002 in the medicaid waivers activity of the long-term care program of the department of health shall be expended to increase provider rates in the developmental disabilities medicaid waiver activity and developmental disabilities general fund activity as allowed by the federal health care financing administration.

Other Intrnl Svc General State Funds/Inter- Federal Item Fund Funds Agency Trnsf Funds Total/Target

1 (1) one million six hundred thirty-nine thousand three hundred dollars (\$1,639,300) to 2 provide:

(a) a salary increase to those judicial permanent employees whose salaries are not set by statute and whose salaries fall below the minimum salary range of the salary schedule, with a salary increase that shall be sufficient to raise their salaries to the minimum of the assigned salary range of the salary schedule. The salary increase shall be effective the first full pay period after July 1, 2001; and

(b) all judicial permanent employees whose salaries are not set by statute an anniversary date salary increase based on a variable pay-for-performance salary matrix that provides a minimum of two percent of the midpoint value of the employee's salary range; the increase is subject to a performance evaluation rating greater than "fails to meet expectations" in accordance with the judicial personnel and compensation plan. The salary increase shall be effective the first full pay period after the employee's anniversary date. The performance-based salary increase is intended to address performance and market competitiveness and shall be implemented with consideration to the recommendations resulting from the Hay management consultants' review of the judicial branch classification and compensation plan during fiscal year 2001 and shall limit the percentage of employees who are eligible for the highest anniversary date increase. The administrative office of the courts is directed to provide a report to the legislature no later than January 15, 2002 on a plan to move employees to the appropriate position within a salary range;

(2) nine hundred thirty-seven thousand three hundred dollars (\$937,300) to provide the justices of the supreme court a salary increase to ninety-six thousand two hundred eighty-three dollars (\$96,283); and to provide the chief justice of the supreme court; the chief judge of the court of appeals; judges of the court of appeals, district courts, metropolitan courts and magistrate courts; and child support hearing officers and special commissioners, a salary increase pursuant to the provisions of Section 34-1-9 NMSA 1978. The salary increase shall be effective the first full pay period after July 1,

committee, legislative education study committee, legislative maintenance department, the house and senate, and house and senate leadership staff with an average six and one-half percent merit salary increase based on job performance. The performance-based salary increase is intended to address performance and market competitiveness and shall be implemented with consideration to the recommendations resulting from the national conference of state legislatures' study. The salary increase shall be effective the first full pay period after the employee's anniversary date.

B. The following amounts are appropriated to the department of finance and administration for expenditure in fiscal year 2002 to provide salary increases as follows:

- (1) one million five hundred thousand dollars (\$1,500,000) to provide a five percent salary increase for the social worker series of the protective services division of the children, youth and families department. The salary increase shall be effective the first full pay period after July 1, 2001;
 - (2) two million four hundred ninety thousand four hundred dollars (\$2,490,400) to provide adult correctional officers of the following ranks: correctional officer one, correctional officer sergeant, correctional officer two, correctional officer three, correctional officer four and the correctional officer specialists series of the corrections department a fifty cent (\$.50) per hour salary increase effective the first full pay period following July 1, 2001 and a fifty cent (\$.50) per hour salary increase effective the first full pay period following January 1, 2002; and
 - (3) three hundred twenty thousand dollars (\$320,000) to provide the tax account auditor series of the taxation and revenue department with a compa-ratio to compa-ratio that was in effect prior to July 1, 2001, salary increase based on new salary grades adopted by the personnel board in 1999. The salary increase shall be effective the first full pay period following January 1, 2002.
- C. Thirty-three million eight thousand five hundred dollars (\$33,008,500) is appropriated from the general fund to the commission on higher education for expenditure in fiscal year 2002 to provide faculty of four- and two-year post-secondary educational institutions with a seven percent salary increase

		Other	Intrn1 Svc		
	General	L State	Funds/Inter-	Federal	
Item	Fund	Funds	Agency Trnsf	Funds	Total/Target

and other staff of four- and two-year post-secondary educational institutions with a six and one-half percent salary increase. The salary increase shall be effective the first full pay period after July 1, 2001.

- D. The department of finance and administration shall distribute a sufficient amount to each agency to provide the appropriate increase for those employees whose salaries are received as a result of the general fund appropriations in the General Appropriation Act of 2001. Any unexpended or unencumbered balance remaining at the end of fiscal year 2002 shall revert to the general fund.
- E. For those state employees whose salaries are referenced in or received as a result of non-general fund appropriations in the General Appropriation Act of 2001, the department of finance and administration shall transfer from the appropriate fund to the appropriate agency the amount required for the salary increases equivalent to those provided for in this act, and such amounts are appropriated for expenditure in fiscal year 2002. Any unexpended or unencumbered balance remaining at the end of fiscal year 2002 shall revert to the appropriate fund.
- Section 10. **ADDITIONAL FISCAL YEAR 2001 BUDGET ADJUSTMENT AUTHORITY.**—During fiscal year 2001, subject to review and approval by the department of finance and administration, in addition to the budget adjustment authority granted in Section 12 of Chapter 5 of Laws 2000 (S.S.) and pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978:
- A. the court of appeals may request transfers up to nine thousand dollars (\$9,000) to the personal services category from the contractual services category;

funds appropriations that collects money in excess of those appropriated may request budget increases in an amount not to exceed four percent of its internal service funds/interagency transfers or other state funds appropriation contained in Section 4 and Section 5 of the General Appropriation Act of 2001.

- E. In order to track the four percent transfer limitation outlined in Subsection D of this section, agencies shall report cumulative budget adjustment request totals on each budget adjustment request submitted. The department of finance and administration shall certify agency reporting of these cumulative totals.
- F. In addition to the budget increase authority provided in Subsection D of this section, the following agencies may request specified budget increases:
- (1) the statewide judiciary automation program in the administrative office of the courts may request budget increases up to seven hundred thousand dollars (\$700,000) from other state funds to enter into agreements with other states and other governmental entities for cooperative computer automation projects; may request budget increases up to three hundred thousand dollars (\$300,000) from other state funds to budget funds from other judicial agencies or divisions for consolidated equipment purchases and contractual services; and may request transfers to and from the contractual services category to and from the other category for maintenance and repairs;
- 17 (2) the thirteenth judicial district attorney may request budget increases from other state funds and internal service funds/interagency transfers;
 - (3) the attorney general may request budget increases up to two hundred fifty thousand dollars (\$250,000) from the consumer protection fund; and up to one hundred thousand dollars (\$100,000) from the investigative costs and forfeiture fund for the medicaid fraud division to be used for costs of investigation, attorney fees and enforcement;
 - (4) the state investment council may request budget increases from other state funds and internal service funds/interagency transfers up to two million dollars (\$2,000,000) for investment manager fees and custody fees; provided that this amount may be exceeded if the department of finance and

1	administration approves a certified request from the state investment council that additional increases
2	from other state funds are required for increased management fees and custody fees derived from asset
3	growth and performance. The state investment council may request category transfers to any other category
4	except that money appropriated for investment manager fees in the contractual services category shall not
5	be transferred;
6	(5) notwithstanding the provisions of Subsection D of Section 11 of the General
7	Appropriation Act of 2001 the general services department may request budget increases from internal
8	service funds/interagency transfers and other state funds for fiscal year 2002 greater than the four
9	percent provided in that subsection;
10	(6) the educational retirement board may request budget increases from other state funds
11	up to one million five hundred thousand dollars (\$1,500,000) for manager fees and custody fees; provided
12	that this amount may be exceeded if the department of finance and administration approves a certified
13	request from the educational retirement board that additional increases from other state funds are
14	required for increased management fees and custody fees derived from asset growth and performance. The
15	educational retirement board may request category transfers, except that funds authorized for investment
16	manager fees within the contractual services category of the administrative division and for custody
17	services within the other costs category of the administrative division shall not be transferred;
18	(7) the public defender department may request budget increases from cash balances for
19	operating expenses, contracts and automation; and may request transfers from the contractual services,
