### STATE OF NEW MEXICO SENATE

### FORTY-FIFTH LEGISLATURE SECOND SESSION, 2002

Mr. President:

**February 4, 2002** 

Your **FINANCE COMMITTEE**, to whom has been referred

### HOUSE APPROPRIATIONS AND FINANCE COMMITTEE SUBSTITUTE FOR HOUSE BILLS 2, 3, 4, 5 AND 6

has had it under consideration and reports same with recommendation that it DO PASS, amended as follows:

1. On pages 5 through 212, strike Sections 4, 5, 6, 7, 8 and 9 in their entirety and insert in lieu thereof:

"Section 4. **FISCAL YEAR 2003 APPROPRIATIONS.**--Under guidelines developed by the state budget division, in consultation with the legislative finance committee, each agency for which performance measures are established in this section shall file a report with the state budget division and the legislative finance committee analyzing the agency's performance relative to the performance measures and targets in this section. The reports shall be submitted quarterly for certain performance measures and after the end of fiscal year 2003 for the remaining measures. The state budget division, in consultation with the legislative finance committee, shall develop a list of key performance measures for quarterly reporting. The reports shall compare actual performance for the report period with targeted performance based on the level of funding appropriated. In developing guidelines for the submission of agency performance reports, the state budget division, in consultation with the legislative finance committee, shall establish standards for the reporting of variances between actual and targeted performance levels. The quarterly and year-end reports for the period ending June 30, 2003, shall be filed with the state budget division and the legislative finance committee on or before September 1, 2003.

It is the intent of the legislature to continue to improve implementation of the Accountability in Government Act by emphasizing measures that are meaningful to the public and measures that cross agency lines by including them in the General Appropriation Act of 2003. The legislature expects implementation of the Accountability in Government Act to improve as additional agencies submit performance-based budget requests and as agencies, the department of finance and administration and the legislative finance committee continue to cooperate on the development of programs, performance measures and targets. For those agencies that have already submitted performance-based-program budgets, the legislature expects continued refinement of measures to improve their consistency, reliability and relevance, and continued emphasis on defining and measuring the constituent activities of a program.

Unless explicitly stated otherwise, each of the program measures and the associated targets contained in this section reflect performance to be achieved for fiscal year 2003. In cases where there are no targets for output, outcome, efficiency or quality measures, agencies are expected to develop baseline data for fiscal year 2003 and to propose targets when submitting budget requests for fiscal year 2004.

In concert with the annual agency strategic planning process required by the state budget division, the state budget division shall require the state agency on aging, human services department, labor department, department of health, and the children, youth and families department to coordinate their strategic plans, including internal and external assessments and development of programs and performance measures.

Upon certification by the state board of finance pursuant to Section 6-1-2 NMSA 1978 that a critical emergency exists that cannot be addressed by disaster declaration or other emergency or contingency funds, and upon review by the legislative finance committee, the secretary of the department of finance and administration is authorized to transfer from the general fund operating reserve to the state board of finance emergency fund the amount necessary to meet the emergency. Such transfers shall not exceed an aggregate amount of five hundred thousand dollars (\$500,000) in fiscal year 2003. Repayments of emergency loans made pursuant to this paragraph shall be deposited in the state board of finance emergency fund pursuant to the provisions of Section 6-1-5 NMSA 1978; provided that, after the total amounts deposited in fiscal year 2003 exceed two hundred fifty thousand dollars (\$250,000), then any additional repayments shall be transferred to the general fund.

None of the money appropriated to the state engineer for operating or trust purposes shall be expended for primary clearing of vegetation in a phreatophyte removal project, except insofar as is required to meet the terms of the Pecos river compact between Texas and New Mexico. However, this prohibition shall not apply to removal of vegetation incidental to the construction, operation or maintenance of works for flood control or carriage of water or both.

The general fund and other state funds appropriations to the state engineer in the contractual services category are contingent upon the state engineer including performance measures in its contracts to increase contract oversight and accountability.

Authorized FTE: 177.20 Permanent; 80.00 Term; .20 Temporary

The general fund appropriations to the state department of public education include sufficient funds to provide a five percent salary increase for those performing work as "education consultant" of the state department of public education. The salary increase shall be effective the first full pay period after July 1, 2002.

The general fund appropriation to the state department of public education in the personal services and employee benefits category includes sufficient funds for two permanent FTE for the agriculture program located in Las Cruces.

The state board of education is directed to evaluate funds appropriated to New Mexico under the 2001 reauthorization of the federal Elementary and Secondary Education Act, "No Child Left Behind", to determine how the federal initiatives align with legislative initiatives and identify how those federal funds can be used in conjunction with state funds to enhance state appropriations for the state department of education and public school support. The state board of education shall report to the legislative finance committee and the legislative education study committee by May 1, 2002.

Unexpended or unencumbered balances in the state department of public education remaining at the end of fiscal year 2003 from appropriations made from the general fund shall not revert.

### COMMISSION ON HIGHER EDUCATION:

(1) Policy development and institutional financial oversight:

The purpose of the policy development and institutional financial oversight program is to provide a continuous process of statewide planning and oversight within the commission's statutory authority for the higher education partners, to ensure both the efficient use of state resources and progress in implementing the public agenda.

The rate of distribution of the state equalization guarantee distribution shall be based on a program unit value determined by the superintendent of public instruction. The superintendent of public instruction shall establish a preliminary unit value to establish budgets for the 2002-2003 school year; and then upon verification of the number of units statewide for fiscal year 2003 but no later than January 31, the superintendent of public instruction may adjust the program unit value.

The general fund appropriation in the state equalization guarantee distribution reflects the deduction of federal revenue pursuant to Paragraph (2) of Subsection C of Section 22-8-25 NMSA 1978 that includes payments commonly known as "impact aid funds" pursuant to 20 USCA 7701 et. seq., formerly known as "PL 874 funds".

The general fund appropriation to the public school fund shall be reduced by the amounts transferred to the public school fund from the current school fund and from the federal Mineral Lands Leasing Act receipts otherwise unappropriated.

Any unexpended or unencumbered balance in the distributions authorized remaining at the end of fiscal year 2003 from appropriations made from the general fund shall revert to the general fund.

DATA PROCESSING APPROPRIATIONS. -- The following amounts are appropriated from the computer Section 7. systems enhancement fund, or other funds as indicated, for the purposes specified. Unless otherwise indicated, the appropriations may be expended in fiscal years 2002 and 2003. Unless otherwise indicated, any unexpended or unencumbered balances remaining at the end of fiscal year 2003 shall revert to the computer systems enhancement fund or other funds as indicated. The department of finance and administration shall allocate amounts from the funds for the purposes specified upon receiving certification and supporting documentation from the requesting agency that identifies benefits that can be quantified and nonrecurring costs and recurring costs for the development and implementation of the proposed system and, for executive agencies, upon receiving certification from the chief information officer that identifies compliance with the information architecture and individual information and communication systems plans and the statewide information technology strategic plan. If the funds are to continue on a project, the documentation shall include certification and a written report by the chief information officer that the project is on schedule, approved project methodology has been followed, independent validation and verification contractor recommendations have been implemented, all funds previously allocated have been expended properly and additional funds are required. All hardware and software purchases funded through the base budget and the information technology funding recommendations shall be procured using consolidated purchasing led by the chief information officer to achieve economies of scale and to provide the state with the best unit price. The state chief information officer shall, no later than July 1, 2002, prepare a statewide architecture plan with input from major stakeholders, determine how the state's existing and proposed computer systems will fit into the plan and provide a five-year strategy for systems to comply with the proposed architecture. Appropriations for any development project shall include a turn-key solution with associated warranty that the state's needs will be met upon implementation and acceptance of the system. The department of finance and administration shall provide a copy of the certification and all supporting documentation to the legislative finance committee.

transfers shall not increase or decrease the appropriation to any division by more than seven and one-half percent;

- (5) "program transfer" means an approved transfer of funds from one program of an agency to another program of that agency, provided that the annual cumulative effect of program transfers shall not increase or decrease the appropriation to any program by more than seven and one-half percent; and
- (6) "federal funds" means any payments by the United States government to state government or agencies except those payments made in accordance with the federal Mineral Lands Leasing Act and except those payments made in accordance with the federal temporary assistance for needy families block grant and the federal Workforce Investment Act of 1998.
- B. Budget adjustments are authorized pursuant to Sections 6-3-23 through 6-3-25 NMSA 1978 for fiscal year 2003.
- C. Except as otherwise provided, all agencies, including legislative agencies, may request category transfers among personal services and employee benefits, other and other financing uses.
- D. An agency with internal service funds/interagency transfers appropriations or other state funds appropriations that collects money in excess of those appropriated may request budget increases in an amount not to exceed four percent of its internal service funds/interagency transfers or other state funds appropriation contained in Section 4 of the General Appropriation Act of 2002.
- E. In order to track the four percent transfer limitation outlined in Subsection D of this section, agencies must report cumulative budget adjustment request totals on each budget adjustment request submitted. The department of finance and administration shall certify agency reporting of these cumulative totals.
- F. In addition to the budget adjustment authority provided in the General Appropriation Act of 2002, the following agencies may request specified budget adjustments:
- (1) the New Mexico compilation commission may request budget increases from other state funds for publishing costs associated with subscriptions, supreme court opinions and other publications;
