BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF NEW MEXICO:

Section 1. Section 22-1-1 NMSA 1978 (being Laws 1967, Chapter 16, Section 1, as amended) is amended to read:

"22-1-1. PUBLIC SCHOOL CODE. --Chapter 22 NMSA 1978 may be cited as the "Public School Code". "

Section 2. A new section of the Public School Code, Section 22-1-1.2 NMSA 1978, is enacted to read:

"22-1-1.2. LEGISLATIVE FINDINGS AND PURPOSE. --

A. The legislature finds that no education system can be sufficient for the education of all children unless it is founded on the sound principle that every child can learn and succeed, and the system must meet the needs of all children by recognizing that student success for every child is the fundamental goal.

B. The legislature finds further that the key to student success in New Mexico is to have a multicultural education system that:

(1) attracts and retains quality and diverse teachers to teach New Mexico's multicultural student population;

(2) holds teachers, students, schools, school districts and the state accountable;

(3) integrates the cultural strengths of its diverse student population into the curriculum with high expectations for all students;

(4) recognizes that cultural diversity in the state presents special challenges for policymakers, administrators, teachers and students; and

(5) elevates the importance of public education in the state by clarifying the governance structure at different levels.

C. The legislature finds further that the teacher

shortage in this country has affected the ability of New Mexico to compete for the best teachers, and that unless the state and school districts find ways to mentor beginning teachers, intervene with teachers while they still show promise, improve the job satisfaction of quality teachers and elevate the teaching profession by shifting to a professional educator licensing and salary system, public schools will be unable to recruit and retain the highest quality teachers in the teaching profession in New Mexico.

D. The legislature finds further that a well-designed, well-implemented and well-maintained assessment and accountability system is the linchpin of public school reform and must ensure that:

(1) students who do not meet or exceed expectations will be given individual attention and assistance through extended learning programs and individualized tutoring;

(2) teachers who do not meet performance standards must improve their skills or they will not continue to be employed as teachers;

(3) public schools make adequate yearly progress toward educational excellence; and

(4) school districts and the state are prepared to actively intervene and improve failing public schools.

E. The legislature finds further that improving children's reading and writing abilities and literacy must remain a priority of the state.

F. The legislature finds further that the public school governance structure needs to change to provide accountability from the bottom up instead of from the top down. Each school principal, with the help of school councils made up of parents and teachers, must be the instructional leader in the public school, motivating and holding accountable both teachers and students. Each local superintendent must function as the school district's chief executive officer and have responsibility for the day-to-day operations of the school district, including personnel and student disciplinary decisions.

G. It is the purpose of this 2003 public school reform legislation to provide the framework to implement the legislative findings to ensure student success in New Mexico. "

Section 3. Section 22-1-2 NMSA 1978 (being Laws 1967, Chapter 16, Section 2, as amended) is repealed and a new Section 22-1-2 NMSA 1978 is enacted to read:

"22-2A-6. REMEDIATION PROGRAMS--PROMOTION POLICIES--RESTRICTIONS.--

D. Diagnosis of weaknesses identified by a student's academic achievement may serve as criteria in assessing the need for remedial programs or retention.

E. A parent shall be notified no later than the end of the second grading period that his child is failing to make adequate yearly progress, and a conference consisting of

the parent and the teacher shall be held to discuss possible remediation programs available to assist the student in attaining adequate yearly progress. Specific academic deficiencies and remediation strategies shall be explained to the student's parent and a written plan developed containing timelines, academic expectations and the measurements to be used to verify that a student has overcome his academic deficiencies. Remediation programs and academic improvement programs include tutoring, extended day or week programs, summer programs and other research-based models for student improvement.

F. At the end of grades one through seven, three options are available, dependent on a student's adequate yearly progress:

(1) the student has made adequate yearly progress and shall enter the next higher grade;

(2) the student has not made adequate yearly progress and shall participate in the required level of remediation. Upon certification by the school district that the student has made adequate yearly progress, he shall enter the next higher grade; or

(3) the student has not made adequate yearly progress upon completion of the prescribed remediation program and upon the recommendation of the teacher and school principal shall either be:

(a) retained in the same grade for no more than one school year with an academic improvement plan developed by the student assistance team in order to meet adequate yearly progress, at which time the student shall enter the next higher grade; or

(b) promoted to the next grade if the parent refuses to allow his child to be retained pursuant to Subparagraph (a) of this paragraph. In this case, the parent shall sign a waiver indicating his desire that the student be promoted to the next higher grade with an academic improvement plan designed to address specific academic deficiencies. The academic improvement plan shall be developed by the student assistance team outlining timelines and monitoring activities to ensure progress toward overcoming those academic deficiencies. Students failing to make adequate yearly progress at the end of that year shall then be retained in the same grade for no more than one year in order to have additional time to master the required content standards.

G.
