

Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current FIRs (in HTML & Adobe PDF formats) are available on the NM Legislative Website (legis.state.nm.us). Adobe PDF versions include all attachments, whereas HTML versions may not. Previously issued FIRs and attachments may be obtained from the LFC in Suite 101 of the State Capitol Building North.

## FISCAL IMPACT REPORT

### APPROPRIATION (dollars in thousands)

Appropriation		Recurring or Non-Rec	Fund Affected
FY06	FY07		
	500.0	Recurring	General Fund

(Parenthesis ( ) Indicate Expenditure Decreases)

Duplicates: SB 138

### SOURCES OF INFORMATION

LFC Files

#### Responses Received From

Department of Veterans' Services (DVS)

Department of Health (DH)

### SUMMARY

#### Synopsis of Bill

House Bill 533 appropriates \$500 thousand from the general fund to the Department of Veterans' Services in FY07 to expand posttraumatic stress disorder programs and services provided by qualified and experienced mental health workers to address the needs of families.

### FISCAL IMPLICATIONS

The \$500 thousand would create a new program at the Department of Veteran's Services, which currently does not provide these services. The Department notes that it would need to develop a program that may include hiring mental health workers to assist veterans with counseling and other services.

**SIGNIFICANT ISSUES**

The Department of Health's notes that the 2000 State of Health In New Mexico report defines "Post-Traumatic Stress Disorder (PTSD) as being caused by severe trauma, such as combat or being the victim of violence. The symptoms include re-experiencing the event (flashbacks, etc.), psychic numbing/avoidance, and hyper-arousal. PTSD is relatively common, affecting 5% percent of men and over 10% of women in their lifetimes."

Prevalence of combat-related mental health problems:

- WWII: 1 Of 5 casualties was psychiatric
- Vietnam: 1 out of 3 combat veterans have history of PTSD (½ of these still had PTSD over a decade later)
- Gulf War: 1 out of 10 combat veterans have a history of PTSD
- Operation Iraqi Freedom and Operation Enduring Freedom still unfolding.

**DUPLICATION**

HB 533 is a duplicate of SB 138.
