

Fiscal impact reports (FIRs) are prepared by the Legislative Finance Committee (LFC) for standing finance committees of the NM Legislature. The LFC does not assume responsibility for the accuracy of these reports if they are used for other purposes.

Current FIRs (in HTML & Adobe PDF formats) are available on the NM Legislative Website (legis.state.nm.us). Adobe PDF versions include all attachments, whereas HTML versions may not. Previously issued FIRs and attachments may be obtained from the LFC in Suite 101 of the State Capitol Building North.

SUMMARY

Synopsis of Bill

Senate Bill 530 appropriates \$75,000 from the general fund to New Mexico State University to support the viticulture program.

FISCAL IMPLICATIONS

The appropriation of \$75,000 contained in this bill is a recurring expense to the general fund. Any unexpended or unencumbered balance remaining at the end of fiscal year 2007 shall revert to the general fund. These funds would augment a recurring appropriation of \$72,000 provided for this purpose in the General Appropriation Act. Additionally, a non-recurring appropriation of \$80,800 was made for the viticulture program in Chapter 34, Laws of 2005 (Senate Bill 190).

SIGNIFICANT ISSUES

This proposal was apparently not included among the special program funding requests submitted by the NMSU to the Higher Education Department (HED) for review. Consequently, this proposal has not been included in the HED fiscal year 2007 funding recommendations to the Legislature.

NMSU reports that this request adds funding for one extension faculty position and one-half clerical support staff, along with funding for supplies and operating expenses including travel within the state.

ADMINISTRATIVE IMPLICATIONS

No significant administrative impact is apparent.

CONFLICT, DUPLICATION, COMPANIONSHIP, RELATIONSHIP

Senate Bill 530 and House Bill 469 are duplicate measures.

OTHER SUBSTANTIVE ISSUES

NMSU reports that the viticulture program responds to New Mexican grape growers' and wine producers' needs for practical information and recommendations for growing and managing their business. The viticulturist program will help achieve the university's extension education and research mission/role in the state. The program would be highly integrated with many institutions, including NMSU academic programs, New Mexico Department of Agriculture, Small Business Development Centers, county governments, tribal governments, Soil and Water Conservation Districts, agricultural producers associations, agribusinesses, and state and federal agencies.
