### SUMMARY

#### Synopsis of SFC Amendments

The Senate Finance Committee amendments to House Taxation and Revenue Committee substitute for House Bill 296:

- Item 1, Section 79, strikes the words “a project manager” and allows the Spaceport America to expend up to \$1.75 million of a 2019 appropriation for operating purposes,
- Item 2, Sections 80 and 81, are deleted from the bill. Both sections are Spaceport America projects deemed unnecessary with the change to Section 79, and
- Item 3 inserts a new Section 97, to allow the Manuelito Chapter of the Navajo Nation in McKinley County to use a 2019 appropriation to purchase and equip vehicles instead of purchasing and equipping a motor grader. The reauthorization also extends the reversion date through fiscal year 2023.
- Item 4, renumber succeeding sections accordingly.

## **FISCAL IMPLICATIONS**

The reauthorization of projects contained in this bill do not require additional capacity and are a nonrecurring expense to the general fund, severance tax bond (STB) fund, or other state funds. Any unexpended balances remaining at the end of the fiscal year as designated in the bill shall revert to the originating funding source three months after the reversion date, unless the expenditure period is changed for any project within this Act.

Section 2(C) of the bill provides that the balance of appropriations made from the general fund or other state funds to the Indian Affairs Department or the Aging and Long-Term Services Department for a project located on lands of an Indian nation, tribe, or pueblo shall revert to the tribal infrastructure project fund.

For the purpose of the reauthorizations contained in this bill, "unexpended balance" is defined as the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties.

## **SIGNIFICANT ISSUES**
