SUMMARY

Synopsis of HTRC Amendment to SFC Substitute for Senate Bill 309

The House Taxation and Revenue Committee amendment for Senate Bill 309 adds three projects to the bill that were left out of in error. Two are reauthorized for extensions of time and one for an extension of time and expansion of purpose.

Synopsis of SFC Substitute for Senate Bill 309

The Senate Finance Committee Substitute for Senate Bill 309 reauthorizes 299 capital projects authorized in previous years from various funds. Reauthorizations of capital outlay projects range from changing the administering agency or the original purpose of the project, extending the reversion date, or expanding the purpose of the original project. A list of projects reauthorized in this bill is attached.

This bill contains an emergency clause and would become effective immediately on signature by the governor.

FISCAL IMPLICATIONS

The reauthorization of funds contained in this bill do not require new capacity and are a nonrecurring expense to the general fund, severance tax bond (STB) fund, or other state funds.

Any unexpended balances remaining at the end of the fiscal year as designated in the bill shall revert to the originating fund three months after the reversion date.

Section 2 (C) of the bill provides that the balance of appropriations made from the general fund or other state funds to the Indian Affairs Department or the Aging and Long-Term Services Department for a project located on lands of an Indian nation, tribe, or pueblo shall revert to the tribal infrastructure project fund.

For the purpose of the reauthorizations contained in this bill, "unexpended balance" is defined as the remainder of an appropriation after reserving for unpaid costs and expenses covered by binding written obligations to third parties.

SIGNIFICANT ISSUES

Reauthorized projects were originally appropriated between 2019 and 2022. Table 1 demonstrates the purpose(s) for which projects in SB309 are reauthorized:

Table 1. Purpose of Reauthorizations in Senate Bill 309

No. of Projects	Reauthorization Purpose
204	Extend Time
49	Extend Time and Change or Expand Purpose
39	Change or Expand Purpose
1	Change Agency and Change or Expand Purpose
1	Change Agency
2	Change Agency, Change or Expand Purpose, and Extend Time
3	Change Agency and Extend Time
299	TOTAL

The number of projects that would be reauthorized by SB309 is approximately double the number reauthorized by the Legislature in 2022, with about two thirds requesting reauthorization for the sole purpose of extending time for the expenditure of funds. This dramatic increase likely reflects the fact that the projects were previously authorized just before the onset of the pandemic or during it, when supply chain delays, labor shortages, cost escalations, and stay at home orders delayed the progress of projects.

Reauthorization requests from state agencies and higher education institutions are approved by the Department of Finance and Administration before inclusion in the bill. Local reauthorization requests are approved by the project sponsor.

The Capital Outlay Bureau of the State Budget Division of the Department of Finance and Administration is responsible for the operation and maintenance of the capital project monitoring system (CPMS). Quarterly reports developed by the Legislative Finance Committee staff are generated from CPMS demonstrating the year and amount of an appropriation, expenditures, encumbrances, and balances for active local and state capital projects, including reauthorizations.

WHAT WILL BE THE CONSEQUENCES OF NOT ENACTING THIS BILL

Funds authorized to projects requesting time extensions with 2023 reversion dates would revert

to the originating funds. Funds for projects requesting reauthorization for a change of purpose or change or agency are unlikely to be spent down and would revert at the date specified in the previous legislative authorization.
