13 outdoor recreation plan.

14 C. Lands designated for acquisition or development

3 D. Lands that are acquired or developed as state
4 parks or state recreational areas shall be managed and

11 enjoyment of the recreational resources in the area;

12 (3) within economical limits, state parks or

1 lands are considered for acquisition or development as state
2 parks or state recreational areas are:

3 (1) the character of the land resources, such
4 as soil, vegetation, topography and water, that affects the
5 suitability of the lands for development as parks or
6 recreational areas;

7 (2) facilities development to meet the
8 average and slightly higher than average demands rather than
9 the peak demands of summer and the holiday weekends;

10 (3) development priority based upon
11 demonstrated use and demand, balance and distribution of
12 existing facilities and the availability of lands suitable for
13 development; and

14 (4) resources protection shall also be
15 considered a priority if the resources need urgent attention,
16 but the priority shall be determined by the relative value of
17 the resources involved.

18 F. The cost of lands to be proposed for
19 acquisition or development as state parks or state
20 recreational areas should be reasonable, with consideration
21 given to the recreational value of the land on which the state
22 park or state recreational area is to be located. No property
23 shall be purchased that involves commitments, privileges or
24 conditions to any private interest, except that property may
25 be purchased that has restrictions limiting its use to that of

7 ~~exempted from the requirements of this section.~~] Feasibility
8 studies shall include:

9 (1) a determination that the proposed area
10 meets the criteria set forth in this section;

14 costs;

15 (3) an estimate of the annual costs for
16 operation and maintenance;

17 (4) an estimate of demand and a projection of
18 visitor use for the proposed area; and

19 (5) an analysis of the proposed area as it
20 relates to plans or development by other governmental agencies
21 or the private sector in adjacent areas.

22 H. The state is authorized, upon the execution of a
23 written agreement between the director of the state [~~park and~~
24 ~~recreation~~] parks division and the department, service or
25 agency of the United States having jurisdiction of lands of

1 the United States, to develop, protect, maintain and operate
2 in accordance with the agreement federally owned lands as
3 state parks or state recreational areas, but the state may not
4 acquire the fee title to or a permanent right in the lands
5 pursuant to such an agreement.

6 I. The designation of sites as suitable for state
7 parks or recreation areas, the designation of certain lands
8 for acquisition or development, the consideration of lands for
9 acquisition or studying the feasibility of acquisition or
10 development of lands shall not create a right of action on the
11 part of any person to force action by the state [~~park and~~
12 ~~recreation~~] parks division or the state.

13 J. Any acquisition of land or any interest in land
14 for state park or recreation purposes shall be approved by the
15 legislature prior to the execution of a written agreement
16 binding the state to expenditure of funds for acquisition or
17 development of state parks or recreation areas.

18 K. Only lands or interests in lands acquired or
19 retained in accordance with the provisions of this section and

21 ~~recreation~~] parks division may use the designation of "state
22 park" or "state recreational area", except a park that is
23 required to be designated as a "state park" to avoid the
24 application of a reversionary clause in a deed or other
25 instrument of conveyance. "
